ANAHEIM CITY COUNCIL ACTION AGENDA

JUNE 9, 2020

CITY COUNCIL HOUSING AUTHORITY

SPECIAL NOTICE DURING COVID-19 PANDEMIC

On March 4, 2020, Governor Newsom proclaimed a State of Emergency in California as a result of the threat of COVID-19. On March 17, 2020, Governor Newsom issued Executive Order N-29-20 (superseding the Brown Act-related provisions of Executive Order N-25-20 issued on March 12, 2020), which allows a local legislative body to hold public meetings via teleconferencing and to make public meetings accessible telephonically or otherwise electronically to all members of the public seeking to observe and to address the local legislative body. Pursuant to Executive Order N-29-20, please be advised that the Anaheim City Council will participate in this meeting telephonically.

PUBLIC PARTICIPATION: Pursuant to Executive Order N-29-20 and given the current health concerns, members of the public can access the meeting live on-line, with audio and limited video, at www.anaheim.net/councilvideos and on Cable Channel 3. In addition, members of the public can submit comments electronically for City Council consideration by sending them to publiccomment@anaheim.net. **To ensure distribution to the City Council prior to consideration of the agenda, please submit comments prior to 1:00 P.M. the day of the meeting.** Those comments, as well as any comments received after 1:00 P.M., will be distributed to the City Council and will be made part of the official public record of the meeting. Contact the City Clerk's Office at 714-765-5166 or cityclerk@anaheim.net with any questions.

ACCESSIBILITY: If requested, the agenda and backup materials will be made available in appropriate alternative formats to persons with a disability, as required by Section 202 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12132), and the federal rules and regulations adopted in implementation thereof. Any person who requires a disability-related modification or accommodation, in order to observe and/or offer public comment may request such reasonable modification, accommodation, aid, or service by contacting the City Clerk's Office by telephone at (714) 765-5166 or via email to cityclerk@anaheim.net, no later than 8:00 AM on the day of the scheduled meeting.

•ORDER OF BUSINESS: Public sessions of all regular meetings of the City Council/Successor Agency to the Redevelopment Agency/Housing Authority/Public Financing Authority/Housing and Public Improvements Authority begin at 5:00 P.M. Public hearings begin at 5:30 P.M. unless otherwise noted. Closed sessions begin at 3:00 P.M. or such other time as noted. Closed sessions may be preceded by one or more public workshops. If a workshop is scheduled, the subject and time of the workshop will appear on the agenda. Not all of the above agencies may be meeting on any given date. The agenda will specify which agencies are meeting. All meetings are in the Anaheim City Hall, Council Chamber, 200 S. Anaheim Blvd., Anaheim, CA 92805 or such other location as noted. Pursuant to Government Code Section 54954.2(a)(2), no action or discussion by the City Council shall be undertaken on any item not appearing on the posted agenda, except to briefly provide information, ask for clarification, provide direction to staff, or schedule a matter for a future meeting.

•REPORTS: All agenda items and reports are available for review in the City Clerk's Office and www.anaheim.net. Any writings or documents provided to a majority of the City Council regarding any item on this agenda (other than writings legally exempt from public disclosure) are available at the Office of the City Clerk, located at 200 S. Anaheim Blvd., 2nd Floor, Anaheim, CA 92805 and by contacting the office by phone, 714-765-5166, or email to cityclerk@anaheim.net.

•ADDITIONS/DELETIONS: Items of business may be added to the agenda upon a motion adopted by a minimum 2/3 vote finding that there is a need to take immediate action and that the need for action came to the attention of the City or Agency subsequent to the agenda being posted. Items may be deleted from the agenda upon request of staff or upon action of the Council or Agency.

•CONSENT CALENDAR: Consent Calendar items will be acted on by one roll call vote unless a member(s) requests an item(s) be discussed and/or removed from the Consent Calendar for separate action.

ANAHEIM CITY COUNCIL

ANAHEIM, CALIFORNIA

JUNE 9, 2020

3:00 P.M.

Call to order the Anaheim City Council. 3:02 P.M.

CITY MANAGER’S UPDATE:

Interim City Manager Greg Garcia addressed events that occurred over the past week, particularly in regards to protests, and thanked all City staff who helped prepare for the community to peacefully protest, including the Police and Public Works Departments. He thanked the community for peacefully exercising their rights through continued powerful statements and expressed pride in the City. Police Chief Jorge Cisneros offered condolences to George Floyd’s family and stated that event was not part of 21st century principles and not Anaheim Police Department policies or practices. He reported 11 peaceful demonstrations were held over the past week, with 25 arrests made on Monday only. He further reported Anaheim Police did not deploy gas or projectiles, referencing an event in Santa Ana, one officer sustained second-degree burns and two vehicles were vandalized. He thanked the entire community, City partners, other law enforcement agencies, and the Chamber of Commerce for their assistance. He referred to an “Eight Can’t Wait” document that was emailed to Council and will be posted on the website and noted the department already does six of the eight policies and he believed there were better processes for the other two than what was proposed and which could be discussed in the future.

Recess the Anaheim City Council. **6:13 P.M.**

5:00 P.M. - HOUSING AUTHORITY **6:13 P.M.**

Items pulled for discussion:

Council Member Moreno: Item No. 01

Items pulled for discussion:

Council Member O'Neil:	Item Nos. 05 and 06
Council Member Moreno:	Item Nos. 12, 17, 22, and 25
Council Member Barnes:	Item No. 19

MOTION: LK/SF Waive reading of all ordinances and resolutions and adopt the consent calendar. **ROLL CALL VOTE: 7-0. Motion carried.**

CONSENT CALENDAR:

3. Receive and file minutes of the Community Services Board meetings of October 10, 2019, January 9, 2020, and February 13, 2020 and the Public Utilities Board meeting of April 22, 2020.

4. Accept the bid from Hunter Consulting, Inc. dba HCI Environmental & Engineering Services, in the amount of \$26,315 plus a 20% contingency, for emergency crime scene clean-up services for a one year period with four one-year optional renewals; and authorize the Purchasing Agent to exercise the renewal options in accordance with Bid #9431.

5. Accept the bid from Airwave Communications Ent., Inc., in the amount of \$103,981.90 plus applicable tax, to perform upfitting services to ten police patrol vehicles with the equipment required to be placed into service, in accordance with Bid #9417.

Item No. 05 Discussion. MOTION: TO/SF ROLL CALL VOTE: 7-0. Motion carried.

6. Waive the sealed bidding requirement of Council Policy 4.0 and authorize the Purchasing Agent to issue a Master Agreement Purchase Order to Fog Data Science, LLC., in the amount of \$40,835 plus applicable tax (to be reimbursed by Urban Area Security Initiative Grant Program), for the purchase of a database subscription to provide geo-spatial information for a one year period for the Orange County Intelligence Assessment Center.

Item No. 06 Discussion. MOTION: TO/LK to approve as presented.

SUBSIDIARY MOTION: JM/DB to continue until a representative of the Orange County Intelligence Assessment Center can attend a meeting to answer questions. ROLL CALL VOTE: 2-4-1 (AYES: Council Members Barnes and Moreno; NOES: Mayor Sidhu and Council Members Faessel, Kring, and O'Neil; ABSTAIN: Council Member Brandman). Motion failed.

MOTION: TO/LK to approve as presented. ROLL CALL VOTE: 6-0-1 (AYES: Mayor Sidhu and Council Faessel, Barnes, Brandman, Kring, and O'Neil; ABSTAIN: Council Member Moreno). Motion carried.

7. Accept the proposal from Veteran Supply Services, LLC, in the amount of \$1,525,186 plus applicable tax, for the purchase of an outdoor metalclad substation switchgear; and authorize the Purchasing Agent, or designee, to execute the Purchase and Sale Agreement and related documents, and take the necessary actions to implement and administer the agreement, in accordance with RFP #9376.
8. Accept the bid from Clean Energy, in the amount of \$32,480 plus a 20% contingency, to perform repair and maintenance services for the City's compressed natural gas compressor equipment for a one year period with four one-year optional renewals; and authorize the Purchasing Agent to execute the renewal options in accordance with Bid #9432.
9. Award the construction contract to the lowest responsible bidder, Arnaz Engineering Contractors, Inc., in the amount of \$1,991,300, for the Rehabilitation of Pressure Regulating Stations No. 30 and No. 31, Demolition and Relocation of Pressure Regulating Stations No. 32 and No. 43, and Construction of New Pressure Regulating Station No. 73 Project; authorize the Director of Public Works to execute the contract, and any other related documents, and take the necessary actions to implement and administer the contract; determine that the project is categorically exempt from the California Environmental Quality Act pursuant to Sections 15301(b), 15302(c), 15303(d), and 15304(f) of Title 14 of the California Code of Regulations; and direct the Finance Director to execute the Escrow Agreement pertaining to contract retentions.
10. Award the construction contract to the lowest responsible bidder, Energy Options, Inc., in the amount of \$388,950, for the Anaheim Convention Center Hall "D" Cooling Tower Replacement and Support Structure Modification Project; authorize the Director of Public Works to execute the contract, and related documents, and take the necessary actions to implement and administer the contract; determine that the project is categorically exempt from the California Environmental Quality Act pursuant to Sections 15301(d) and 15302(c) of Title 14 of the California Code of Regulations; and authorize the Finance Director to execute the Escrow Agreement pertaining to contract retentions.
11. Approve the proposed Close-Out Change Order (Change Order) with ABB Substations Contracting (US) LLC, n/k/a Linxon US LLC, in the amount of \$899,500, which includes the settlement of any City and ABB outstanding claims for the Harbor Substation Design-Build Project; and authorize the Director of Public Works to execute the Change Order and take the necessary actions to implement and administer the Change Order.
12. Waive Council Policy 4.1 and approve an agreement with Townsend Public Affairs, in the amount of \$5,000 per month, for supplemental state advocacy services, for a 12-month term with one one-year optional renewal; and authorize the City Manager, or designee, to administer the agreement and any optional renewals.
Item No. 12 Discussion. MOTION: LK/TO ROLL CALL VOTE: 5-0-2 (AYES: Mayor Sidhu and Council Members Faessel, Brandman, Kring, and O'Neil; ABSTAIN: Council Members Barnes and Moreno). Motion carried.
13. Approve the Workforce Innovation and Opportunity Act Agreement with Foster Assessment Center and Testing Services, Inc. dba FACTS, in the amount of \$50,000, for the provision of skills assessment services through July 1, 2021; and authorize the Director of Community and Economic Development to execute and the Workforce Development Manager, or designee, to administer the agreement.

14. Approve Workforce Innovation and Opportunity Act (WIOA) agreements for the provision of occupational skills training and on-site job training, each for a term expiring June 30, 2022; and authorize the Director of Community and Economic Development to execute and the Workforce Development Manager, or designee, to administer the agreements with the following training contractors and their respective contract amounts: 1) WIOA Agreement, in an amount not to exceed \$50,000 (Employed Security Service Center, Inc.); and 2) WIOA agreements, each in an amount not to exceed \$100,000 (Concorde Career College, Inc.; The Regents of the University of California on behalf of UC Irvine Division of Continuing Education; University of LaVerne).

Approve California Work Opportunities and Responsibility to Kids (CalWORKs) Agreements for the provision of occupational skills training and on-site job training, each for a term expiring June 30, 2022; and authorize the Director of Community and Economic Development to execute and the Workforce Development Manager, or designee, to administer the agreements with the following training contractors and their respective contract amounts: 1) CalWORKs agreement, in an amount not to exceed \$50,000 (Employed Security Service Center, Inc.); 2) CalWORKs agreements, each in an amount not to exceed \$100,000 (Concorde Career College, Inc.; University of LaVerne); and 3) CalWORKs agreement, in an amount not to exceed \$200,000 (KD Education, LLC dba Healthstaff Training Institute).

15. Approve Direct Payment Agreement No. 20Y-2006 with the State of California, Department of Community Services and Development to receive federally-funded Low-Income Home Energy Assistance Program grant funding to be applied to accounts of eligible Anaheim Public Utilities Department electric customers for the term ending March 31, 2023; and authorize the Public Utilities General Manager to execute the agreement, and related documents, and take the necessary actions to implement and administer the agreement.
16. Approve the Per- and Polyfluoroalkyl Substances Treatment Facilities and Program Agreement among the City of Anaheim (City), the Orange County Water District, and other groundwater producers, for reimbursement funding for the City to develop, construct, operate, and maintain groundwater treatment facilities for approximately 30 years; authorize the Public Utilities General Manager, or designee, to execute the agreement, and related documents, and take the necessary actions to implement and administer the agreement; and authorize de minimis changes that do not substantially change the terms and conditions of the agreement, as determined by the City Attorney's Office.

Approve an agreement with Brown and Caldwell, in the annual average sum of \$1,000,000 with a 15% contingency for extra services, to provide owner's engineer consulting services for the design-build of groundwater treatment plants for a five year term; authorize the Public Utilities General Manager, or designee, to execute the agreement and related documents and take the necessary actions to implement and administer the agreement; and authorize de minimis changes that do not substantially change the terms and conditions of the agreement, as determined by the City Attorney's Office.

17. Approve Professional Services Agreements with seven consulting firms, each in an annual amount not to exceed \$250,000, for as-needed consulting services to support the Planning and Building Department, each for a three year period with two one-year optional renewals; and authorize the Planning and Building Director, or designee, to execute the agreements (Bureau Veritas North America, Inc.; CSG Consultants, Inc.; Interwest Consulting Group, Inc.; Jason Addison Smith Consulting Services, Inc.; Scott Fazekas & Associates, Inc.; The Code Group Inc.

dba VCA Code; and 4 LEAF, Inc.).

Item No. 17 Discussion. MOTION: JM/SF ROLL CALL VOTE: 7-0. Motion carried.

18. Approve and authorize the City Manager and Human Resources Director to temporarily suspend applicable personnel rules and pay polices and amend employment contracts in order to reduce the base compensation of all executive management employees by 5% and take any necessary steps to effect the reduction.
19. RESOLUTION NO. 2020-046 A RESOLUTION OF THE CITY OF ANAHEIM approving the acquisition of, and usage and privacy policy related to, cellular communication interception technology equipment.

Waive Council Policy 4.0 and authorize the Purchasing Agent to issue a purchase order to Tactical Support Equipment, Inc., in the amount of \$701,566 plus applicable tax, for the purchase of a cell phone site simulator, licensing, warranty, support, and maintenance for the Anaheim Police Department for a three year period and one week of on-site training; and increase the Anaheim Police Department's Fiscal Year 2019/20 Department of Justice Equitable Sharing (asset forfeiture) fund budget by \$755,000, to cover the purchase cost of the cell phone site simulator, licensing, warranty, support, and training.

Item No. 19 Discussion. MOTION: DB/LK ROLL CALL VOTE: 6-0-1 (AYES: Mayor Sidhu and Council Members Faessel, Barnes, Brandman, Kring, and O'Neil; ABSTAIN: Council Member Moreno). Motion carried.

20. RESOLUTION NO. 2020-047 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM, CALIFORNIA, calling for the holding of a General Municipal Election to be held on Tuesday, November 3, 2020, for the election of certain officers as required by the provisions of Article XIII, Section 1300, of the Charter of the City of Anaheim.

RESOLUTION NO. 2020-048 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM, CALIFORNIA, requesting the Board of Supervisors of the County of Orange to consolidate a General Municipal Election to be held on November 3, 2020, with the Statewide General Election to be held on the date pursuant to § 10403 and 10418 of the California Elections Code.

RESOLUTION NO. 2020-049 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM, CALIFORNIA, adopting regulations for candidates for elective office pertaining to candidate statements submitted to the voters at an election to be held on Tuesday, November 3, 2020.

21. RESOLUTION NO. 2020-050 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM concerning the Local Signal Synchronization Plan Update for the Measure M (M2) Program.

Adopt the FY 2020-21 Seven-Year Capital Improvement Program and authorize staff to submit it to the Orange County Transportation Authority.

22. RESOLUTION NO. 2020-051 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM initiating proceedings for the annual levy of assessments in, and accepting an assessment engineer's report for, the Anaheim Resort Maintenance District.

RESOLUTION NO. 2020-052 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM declaring its intention to provide for an annual levy and collection of assessments in the Anaheim Resort Maintenance District, and setting a time and place for public hearing thereon (Public Hearing scheduled for July 28, 2020).

Item No. 22 Discussion. MOTION: LK/DB ROLL CALL VOTE: 7-0. Motion carried.

23. RESOLUTION NO. 2020-053 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM accepting certain deeds conveying to the City of Anaheim certain real properties or interests therein (City Deed Nos. 12364, 12373, 12374, 12375, & 12376; for public right-of-way purposes).

24. RESOLUTION NO. 2020-054 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM to adopt a Mitigated Negative Declaration for proposed Reclassification No. 2019-00322 (DEV2019-00046; 227 North Magnolia Avenue).

ORDINANCE NO. 6485 (INTRODUCTION) AN ORDINANCE OF THE CITY OF ANAHEIM amending the Zoning Map referred to in Title 18 of the Anaheim Municipal Code relating to zoning (Reclassification No. 2019-00322) (DEV2019-00046; 227 North Magnolia Avenue) [Reclassify the property from the T (Transition) and RM-2 (Multiple-Family Residential) Zones to the RM-3 (Multiple-Family Residential) Zone].

25. ORDINANCE NO. 6483 (ADOPTION) AN ORDINANCE OF THE CITY OF ANAHEIM amending Chapters 18.04 (Single-Family Residential Zones); 18.06 (Multiple-Family Residential Zones); 18.14 (Public and Special-Purpose Zones); 18.36 (Types of Uses); 18.38 (Supplemental Use Regulations); 18.40 (General Development Standards); 18.42 (Parking and Loading); 18.92 (Definitions); and 18.122 (Beach Boulevard Specific Plan No. 2017-1 (SP 2017-1) of Title 18 (Zoning) of the Anaheim Municipal Code; and finding and determining that this ordinance is exempt from the requirements to prepare additional environmental documentation per Public Resources Code Section 21080.17 and California Environmental Quality Act (CEQA) Guidelines Sections 15282(h), 15061(b)(3); 15301, Class 1 (Existing Facilities); and, 15303, Class 3 (New Construction or Conversion of Small Structures) because it will not have a significant effect on the environment (Zoning Code Amendment No. 2020-00169) (Adjustment No. 2 to the Beach Boulevard Specific Plan No. 2017-1 (SPN2017-00001b)) (DEV2020-00001) (address changes in State law pertaining to Accessory Dwelling Units and Junior Accessory Dwelling Units; introduced at Council meeting of May 12, 2020, Item No. 16).

Item No. 25 Discussion. MOTION: JM/DB ROLL CALL VOTE: 7-0. Motion carried.

26. ORDINANCE NO. 6484 (ADOPTION) AN ORDINANCE OF THE CITY OF ANAHEIM amending Chapter 2.12 (Transient Occupancy Tax) of Title 2 (Taxes) of the Anaheim Municipal Code to modify the operator's collection duties (require hotel operators to collect rent through direct payment; introduced at Council meeting of May 12, 2020. Item No. 21).

27. Approve minutes of the City Council meetings of July 30, 2019 and August 13, 2019.

END OF CONSENT CALENDAR 7:34 P.M.

28. ORDINANCE NO. _____ (INTRODUCTION) AN ORDINANCE OF THE CITY OF ANAHEIM, CALIFORNIA adding Chapter 4.110 to Title 4 of the Anaheim Municipal Code regulating cannabis distribution, manufacturing, cultivation, retail sale, deliveries, and testing laboratories, and repealing Chapters 4.20, 4.21, and 4.100 of the Municipal Code (to take effect only upon passage of a cannabis tax measure at the November 3, 2020 General Municipal Election) (continued from Council meeting of May 12, 2020, Item No. 23).

Determine that this ordinance is not subject to the California Environmental Quality Act (CEQA) pursuant to sections 15004, 15060(c)(2), 15060(c)(3), 15061(b)(3), 15301, 15303, and 15332 of Title 14 of the California Code of Regulations, because it will not result in a direct or reasonably foreseeable indirect physical change in the environment, because there is no possibility that it may have a significant effect on the environment, because it is not a project, as defined in section 15378, and because it is also the subject of categorical exemptions from CEQA. (continued from Council meeting of May 12, 2020, Item No. 23).

Item No. 28 Discussion. MOTION: JB/LK to approve as amended to increase the distance from schools, etc. from 600 feet to 750 feet, to not allow retail cannabis locations within 500 feet from each other as measured from the closest property line, and to set a maximum of 18 retail licenses citywide with no more than three per district.

SUBSIDIARY MOTION: DB/JM to extend limits of debate. Mayor Sidhu denied the request.

MOTION OF ORDER: JM/DB to appeal the ruling of the chair. ROLL CALL VOTE: 3-4 (AYES: Council Members Barnes, Moreno, and O'Neil; NOES: Mayor Sidhu and Council Members Faessel, Brandman, and Kring.) Motion failed.

MOTION: JB/LK to approve as amended to increase the distance from schools, etc. from 600 feet to 750 feet, to not allow retail cannabis locations within 500 feet from each other as measured from the closest property line, and to set a maximum of 18 retail licenses citywide with no more than three per district. ROLL CALL VOTE: 3-4 (AYES: Mayor Sidhu and Council Members Brandman and Kring; NOES: Mayor Pro Tem Faessel and Council Members Barnes, Moreno, and O'Neil). Motion failed.

During discussion of Item No. 29, Mayor Sidhu stated his vote on Item No. 28 was a "no." City Clerk confirmed the vote for Item No. 28 as follows: VOTE: 2-5 (AYES: Council Members Brandman and Kring; NOES: Mayor Sidhu and Council Members Faessel, Barnes, Moreno, and O'Neil). Motion failed.

29. RESOLUTION NO. _____ A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM, CALIFORNIA calling for the placement of a general tax measure on the ballot for the November 3, 2020 General Municipal Election submitting to the qualified voters a proposed ordinance adding Chapter 2.15 to Title 2 of the Anaheim Municipal Code establishing a tax on cannabis businesses operating within the City; requesting that the Orange County Board of Supervisors consolidate the City's Municipal Election with the Statewide General Election to take place on November 3, 2020; setting rules and deadlines for the filing of arguments and rebuttal arguments; and directing the City Attorney to prepare an impartial analysis [approval of this resolution includes determination that the ballot measure is not a project within the meaning of California Environmental Quality Act ("CEQA") and the State CEQA Guidelines, Section 15378(b)]

because it relates to organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment].

Item No. 29 Discussion. MOTION: TO/HS to lay on the table.

MOTION OF ORDER: JM requested a Point of Order and to allow a second round of discussion for each Council Member. Mayor Sidhu denied the Point of Order.

MOTION OF ORDER: JM/DB to appeal the ruling of the Chair. ROLL CALL VOTE: 2-5 (AYES: Council Members Barnes and Moreno; NOES: Mayor Sidhu and Council Members Faessel, Brandman, Kring, and O'Neil). Motion failed.

MOTION: TO/HS to lay on the table. ROLL CALL VOTE: 4-3 (AYES: Mayor Sidhu and Council Members Faessel, Barnes, and O'Neil; NOES: Council Members Brandman, Moreno, and Kring). Motion carried; item tabled.

30. RESOLUTION NO. _____ A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM proclaiming the continuing existence of a local emergency regarding civil unrest.
Item No. 30 Withdrawn by staff.

31. Update on the City's response to COVID-19.
Item No. 31 Discussion. Informational - No action taken.

5:30 P.M. PUBLIC HEARINGS: 9:59 P.M.

32. *Withdrawn by appellant.*

CEQA CATEGORICAL EXEMPTION, CLASS 1
CONDITIONAL USE PERMIT NO. 2013-05702A
VARIANCE NO. 2014-04989A
(DEV2017-00008)

OWNER/APPELLANT: Salee Zaverbeck/ Eric Adel

PROJECT LOCATION: 1200 South Brookhurst Street.

REQUEST: The applicant requests approval of an amendment to a conditional use permit to permit and retain the expansion of an existing hookah lounge and restaurant within a multi-tenant commercial center with fewer parking spaces than required by the Anaheim Municipal Code (Nara Bistro).

ENVIRONMENTAL DETERMINATION: The City Council will consider whether the proposed action is Categorically Exempt from the requirements to prepare additional environmental documentation per California Environmental Quality Act (CEQA) Guidelines, Section 15301, Class 1 (Existing Facilities).

ACTION TAKEN BY THE PLANNING COMMISSION: Approved with the following modifications: (i) Modified Condition No. 28 to require the installation and permanent maintenance of CCTV's on the subject premises; (ii) Modified Condition No. 32 to state that within 60 days of the date of approval, the applicant shall submit plans and complete a Building Code analysis for occupancy changes and any tenant improvements within the subject building. In addition, all proper building permits shall be obtained for the smoking lounge within 120 days of the date of this approval. These timelines may be modified in the event that a State of Emergency is declared by the City, State, or Federal government, and shall be subject to review and approval by the Planning Director; and (iii) Modified Condition No. 33 to state that this permit shall be subject to a noticed public hearing for modification or revocation review by the Planning

Commission in six (6) months, commencing from the date of this approval. Planning Department staff will also report back to the Planning Commission as "Reports and Recommendations" (R&R) items twelve (12) and eighteen (18) months after the public hearing in order to verify that the business has been operating in compliance with their conditions of approval. Future compliance reviews may be required if significant violations are identified in the future or a revocation hearing shall be scheduled by the Planning Commission. (PC2020-004). **VOTE: 6-1** (Chairperson Lieberman and Commissioners Armstrong, Keys, Meeks, Vadadoria, and White voted yes; Commissioner Mulleady voted no) (Planning Commission meeting of April 13, 2020) (Appealed by Salee Zaverbeck and Eric Adel).

Item No. 32 Withdrawn by appellant/applicant.

33. **MITIGATED NEGATIVE DECLARATION**
GENERAL PLAN AMENDMENT NO. 2019-00527
RECLASSIFICATION NO. 2019-00320
CONDITIONAL USE PERMIT NO. 2019-06009
TENTATIVE TRACT MAP NO. 19017
(DEV2019-00037)

OWNER/APPLICANT: Wayne Anastasi, Anastasi Development Company, LLC, 511 Torrance Blvd., Suite 111, Redondo Beach, CA 90277

PROJECT LOCATION: 1619, 1631, and 1699 W. Lincoln Avenue and an adjacent City-owned parcel with no address assigned. This 7.17-acre site is generally located on the north side Lincoln Avenue, with the Lincoln Street frontage located approximately 557 feet east from the Lincoln Avenue and Euclid Street intersection.

REQUEST: The applicant requests approval of the following land use entitlements to allow construction of a 115-unit, three-story, attached single-family residential development with modified development standards: (i) amend the General Plan land use designation from General Commercial to Mid Density Residential; (ii) a Zoning Reclassification from the C-G (General Commercial), T (Transitional), and I (Industrial) to the RM-3.5 (Multiple-Family Residential) zone; (iii) a Conditional Use Permit to allow an attached single-family residential development with modified standards in the proposed RM-3.5 zone; and (iv) a Tentative Tract Map to establish a 1-lot, 115-unit condominium subdivision.

ENVIRONMENTAL DETERMINATION: The City Council will consider whether a Mitigated Negative Declaration is the appropriate environmental documentation for this request under the California Environmental Quality Act and approval and adoption of Mitigated Negative Declaration and the Mitigation Monitoring Plan No. 365.

ACTION TAKEN BY THE PLANNING COMMISSION: Approved and recommended City Council approval of General Plan Amendment No. 2019-00527, Reclassification No. 2019-00320, Conditional Use Permit No. 2019-06009, and Tentative Tract Map No. 19017. **VOTE: 5-2** (Chairperson Lieberman and Commissioners Armstrong, Keys, Meeks, and Vadadoria voted yes; Commissioners Mulleady and White voted no) (Planning Commission meeting of April 13, 2020).

RESOLUTION NO. 2020-055 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM to adopt a Mitigated Negative Declaration for proposed General Plan Amendment No. 2019-00527, Reclassification No. 2019-00320, Conditional Use Permit No. 2019-06009, and Tentative Tract Map No. 19017 (DEV2019-00037; 1619, 1631, and 1699 W. Lincoln Avenue and an adjacent city-owned parcel with no address assigned).

RESOLUTION NO. 2020-056 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM amending the General Plan of the City of Anaheim (General Plan Amendment No. 2019-00527) (DEV2019-00037; 1619, 1631, and 1699 W. Lincoln Avenue and an adjacent city-

owned parcel with no address assigned) [Change the property's land use designation from General Commercial to Mid Density Residential].

RESOLUTION NO. 2020-057 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM approving and adopting proposed Conditional Use Permit No. 2019-06009 (DEV2019-00037; 1619, 1631, and 1699 West Lincoln Avenue and an adjacent city-owned parcel with no address assigned).

RESOLUTION NO. 2020-058 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM approving Tentative Tract Map No. 19017 (DEV2019-00037; 1619, 1631, and 1699 West Lincoln Avenue and an adjacent city-owned parcel with no address assigned).

ORDINANCE NO. 6486 (INTRODUCTION) AN ORDINANCE OF THE CITY OF ANAHEIM amending the Zoning Map referred to in Title 18 of the Anaheim Municipal Code relating to zoning (Reclassification No. 2019-00320; DEV2019-00037) [Reclassify the property from the Transition, Industrial, and General-Commercial Zones to the RM-3.5 (Multiple-Family Residential) Zone].
Item No. 33 Mayor Sidhu opened the public hearing. Comment by Applicant and ten public comments received via email – See Appendix. Mayor Sidhu closed the public hearing.

Discussion.

MOTION: LK/TO to approve as presented.

SUBSIDIARY MOTION: TO/LK to call the question. ROLL CALL VOTE: 4-3 (AYES: Mayor Sidhu and Council Members Faessel, Kring, and O'Neil; NOES: Council Member Barnes, Brandman, and Moreno). Motion failed (pursuant to Rules of Order for the Conduct of City Council Meetings, affirmative votes of at least two-thirds required).

Discussion.

MOTION: LK/TO to approve as presented. ROLL CALL VOTE: 6-1 (AYES: Mayor Sidhu and Council Members Faessel, Barnes, Brandman, Kring, and O'Neil; NOES: Council Member Moreno). Motion carried.

34. This is a public hearing concerning real property generally located at Lincoln Avenue and Euclid Avenue, which is proposed to be sold by the City of Anaheim to SLF-West Lincoln, LLC (APN No. 072-110-19, City ROW Parcel: No Known APN).

RESOLUTION NO. 2020-059 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ANAHEIM approving a Disposition and Development Agreement by and between the City of Anaheim and SLF West Lincoln, LLC, a Delaware limited partnership; authorizing the Director of Community and Economic Development to execute such Disposition and Development Agreement; authorizing the Director of Community and Economic Development to implement such Disposition and Development Agreement; and making certain other findings in connection therewith.

Item No. 34 Mayor Sidhu opened the public hearing. Three public comments received via email. Mayor Sidhu closed the public hearing.

Discussion.

Discussion.

MOTION: LK/JM to approve as presented. ROLL CALL VOTE: 7-0. Motion carried.

Report on Closed Session Actions: None

Public Comments (non-agenda items): None

Council Communications/Agenda Requests:

Mayor Sidhu formally agendaized for the next meeting to have Chief Jorge Cisneros to present the Anaheim Police Department policies.

Council Member Barnes announced street sweeping enforcement would resume on June 15 and a small Flag Day parade would be held on Sunday, June 14, 1-2 P.M. She asked residents to withhold use of fireworks until July 4. She acknowledged and thanked volunteers for food distributions at the Beach Blvd. Youth Center and Brookhurst Community Center, including the Boys & Girls Club, Vineyard Church, Second Harvest, Orange County Food Bank, and Friends for Families. She expressed thanks for the City providing food to the community. Addressing global protests regarding George Floyd, she felt it important to listen to voices and encouraged dialogue with the minority community and acknowledged Anaheim has been a leader with the Police Review Board and an independent police auditor in seeing positive changes in policies. She requested an agenda item for July 14 for staff look at ways to improve outreach and increase representation of the minority community and reflect the City's diversity on the Police Review Board. She also requested presentations by the Police Review Board and independent police auditor of their most recent reports, concurred by Council Members Moreno and Brandman.

Council Member Moreno thanked Council Member Barnes for agendizing the Police Review Board items. Referring to the Budget Workshop, he requested Council consider an item to place a ballot measure to the voters of a proposed Gate Fee/Tax of \$1/ticket for Disneyland, Angel Stadium, and the Honda Center to address budget shortfalls and allow services to continue by receiving additional revenue from visitors/tourists. He was open to discussing a percentage as well as putting a sunset date on the fee/tax, concurred by Council Member Barnes (*request failed for lack of second concurrence*). He hoped the Council and staff would be open to a special meeting to address additional budget concerns, specifically related to the police and community services budgets and additional revenue streams. He thanked all who worked to keep the city safe and show the world Anaheim can express its rights. He hoped Council would listen to the pleas of the current generation, thanked small businesses for their work and support, and hoped for more trust and less fear.

Council Member Brandman provided a statement on the events of the past two weeks and the need to reflect and address inequities in the community. He stated he stands with the black community in their fight against social injustice and iniquities, this was personal for him individually, peacefully protesting is an absolute right of residents, and he was encouraged to see young people standing up and getting involved. He hoped leaders would look at policies and reform for real change and thanked Mayor Sidhu for his leadership and being proactive in looking at how Anaheim can protect and serve its residents.

Council Member Kring stated she could not support Council Member Moreno's ballot measure as she believed taxes at the Stadium and Honda Center would affect local residents. She expressed gratitude for the moment of silence in honor of George Floyd and asked for thoughts and prayers for all injured and killed during recent events. She thanked City staff, Chief Cisneros, and Interim City Manager Garcia for continuing to work and serve the community during the impacts of COVID-19. She further announced mosquito season had started, announced spraying at Modjeska Park and Dad Miller Golf Course, and encouraged residents to tip and toss standing water, use DEET products, and wear long sleeves and pants at dusk and dawn as protective measures.

Mayor Pro Tem Faessel thanked Mayor Sidhu for asking Chief Cisneros to present at the next meeting and requested the Chief also address an email he received about police response during last Monday's march. He requested the meeting adjourn in memory of George Floyd and Sister Mary Peter Travis. He thanked the principals and staff of Benito Juarez, Guinn, and Rio Vista schools for inviting him and Susan to participate in car parades recognizing 5th/6th grade graduates. He reported the Anaheim Hotel donated furniture to the Salvation Army to assist homeless residents and that he participated in a virtual Coffee with a Cop with Chief Cisneros, assisted with a YMCA food distribution in the Sabina/Sycamore neighborhood where they served over 500 meals, he reported the YMCA was now serving 50,000 meals/week, and he joined the Mayor in accepting a \$1.8 million CARES funding from the Orange County Board of Supervisors. He further reported that he helped distribute 5,000 donated face masks to the YMCA, Boys & Girls Club, Meals on Wheels, Orange County Conservation Corp, Chrysalis, and the Anaheim Senior Citizens Club. Additionally, last week he and Susan helped facilitate 75 Chromebook

donations to the YMCA by Dr. Shaw. He thanked Anaheim Public Utilities for upgrading lighting near Ball and Sunkist and thanked all members of the community who joined together peacefully and safely to have constructive dialogue and looked forward to efforts to uplift all communities.

Council Member Moreno requested consideration of a resolution in support of the Black Lives Matter movement on June 23, seconded by Council Member Barnes (*request failed for lack of second concurrence*).

Mayor Sidhu thanked City staff for working through the turmoil of the last week, which kept the City safe and mourned the death of George Floyd.

Adjournment: 1:36 A.M. on June 10, 2020 in memory of George Floyd and Sister Mary Peter Travis.

Next regular City Council meeting is scheduled for June 23, 2020.

All agenda items and reports are available for review in the City Clerk's Office and www.anaheim.net. Any writings or documents provided to a majority of the City Council regarding any item on this agenda (other than writings legally exempt from public disclosure) will be available at the Office of the City Clerk, located at 200 S. Anaheim Blvd., 2nd Floor, Anaheim, CA 92805 and by contacting the office by phone, 714-765-5166, or email to cityclerk@anaheim.net.

If requested, the agenda and backup materials will be made available in appropriate alternative formats to persons with a disability, as required by Section 202 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12132), and the federal rules and regulations adopted in implementation thereof. Any person who requires a disability-related modification or accommodation, in order to observe and/or offer public comment may request such reasonable modification, accommodation, aid, or service by contacting the City Clerk's Office by telephone at (714) 765-5166 or via email to cityclerk@anaheim.net, no later than 8:00 AM on the day of the scheduled meeting.

SERVICIOS DE TRADUCCION: Para servicios de interpretación, comuníquese con la oficina de la Ciudad (City Clerk), cuando menos 24 horas antes de la junta programada. Llamando al 714-765-5166. Debido a que existen muchos dialectos y regionalismos, la Ciudad no puede garantizar que los intérpretes puedan traducir a un dialecto o regionalismo en particular y rehúsa cualquier responsabilidad que surja de tales servicios.

TRANSLATION SERVICES: For translation services, contact the City Clerk's office no later than 24 hours prior to the scheduled meeting by calling 714-765-5166. Because many dialects and regionalisms exist, the City cannot guarantee that interpreters will be able to interpret into a particular dialect or regionalism, and disclaims any liability alleged to arise from such services.

VIEW CITY COUNCIL MEETINGS LIVE AND ARCHIVED: Anaheim City Council meeting videos can be viewed live on the City's website at www.anaheim.net/councilvideos.

POSTING STATEMENT: On June 4, 2020, a true and correct copy of this agenda was posted on the kiosk outside City Hall, 200 S. Anaheim Blvd., Anaheim, CA. Internet Access to City Council, Agency, and Authority agendas and related material is available prior to meetings at www.anaheim.net. On June 5, 2020, a true and correct copy of this revised agenda was posted on the kiosk outside City Hall, 200 S. Anaheim Blvd., Anaheim, CA.

Subject: Decrease Police Funding
Date: Monday, June 8, 2020 9:01:33 AM

Dear Mayor Sidhu and Council Members,

My name is Sehr Nazir and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim Hills, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

Ban Chokeholds and Strangleholds
Require De-escalation

Require Exhausting Other Means Before Shooting
Ban Shooting at Moving Vehicles
Implement Use of Force Continuum
Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Sehr Nazir

Subject: We Need a Budget That Represents US

Hello,

My name is Mikyla. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Mikyla

Subject: We Need a Budget That Represents US

Hello,

My name is Emily Kim. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Subject: We Need a Budget That Represents US

Hello,

My name is Chase Ramos . I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Chase Ramos

Subject: We Need a Budget That Represents US

Hello,

My name is Heather Macias. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Heather Macias, Ph.D.

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Diana Herrera

Subject: We Need a Budget That Represents US

Hello,

My name is Aarsal Bokhari. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Aarsal Bokhari

To whom it may concern,

I understand there's a budget proposal to cut 20% of the community service budget. Now, more than ever, our children need after school programs, need the employees at the library who read to them, need to be safe and taken care of by our community.

Please do not cut the community services budget.

Please do not give the police more money for surveillance.

After school programs and library programs are perfect examples of how to build strong communities without the need for police intervention.

Redistribute the budget. Do not cut our community service programs.

Thank you,
Emily Johnson

Subject: Concerns about Police Funding
Date: Monday, June 8, 2020 2:42:47 AM

I'm Adrian Bravo, I lived in Anaheim for 17 years. I graduated at Magnolia High school, and I want to talk to you about the arts just a little bit.

The art programs in Anaheim are really good! Trust me, I've seen some amazing things! But the schools campuses for the arts, is not. Magnolia high school, one of the lowest funded schools in the district. It seems like it is. I was in the marching band all 4 years of high school. I would love it if a percentage of the funds for the police department went towards the art programs in the more poor high schools. Whether that be theatre, art, choir, band, marching band, color guard, and dance.

These are such important programs to me. Please reconsider where the funds go. Schools need it way more.

Thank you for your time!,
Adrian Bravo

Subject: Decrease Police Funding
Date: Monday, June 8, 2020 8:04:02 AM

Dear Mayor Sidhu and Council Members,

My name is Rihab Beituni, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education (public schools), homelessness(prevention and support), affordable housing, public parks (playgrounds & walking tracks) and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

Ban Chokeholds and Strangleholds

Require De-escalation
Require Exhausting Other Means Before Shooting
Ban Shooting at Moving Vehicles
Implement Use of Force Continuum
Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Rihab Beituni

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting

Ban Shooting at Moving Vehicles
Implement Use of Force Continuum
Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Tabitha Martinez

Subject: City Budget
Date: Monday, June 8, 2020 9:58:39 AM

Hello,

I was born and raised in Anaheim. I grew up using the Anaheim public library system. Going to readings as a small child at the Euclid branch. Participating in after school programs at the Central branch. One of my first jobs was a page at the Haskett branch. A huge resource for my family and I that we always relied on and deeply appreciated.

I understand that Anaheim is currently considering cutting 20% of the community service budget. This is unacceptable.

The budget for the police exceeds \$150 million? 15 times the budget for community development. This is unacceptable.

Our police do not need more military grade gear and weapons to use against its citizens. My friends who work in Anaheim's after school programs need to keep their jobs.

Imagine how many programs that serve the community could be bolstered via a 25% reduction in the police budget. That's approximately \$37,500,000.

Fund our libraries. Fund our school. Fund mental health services. Defund the police.

Best,
Erik Varho

Subject: DO NOT CUT COMMUNITY SERVICE BUDGET
Date: Monday, June 8, 2020 10:02:29 AM

We are seeing now more than ever how misappropriation of funds are ruining Anaheim. The police department needs to have their funding redirected into programs such as these so we can build a better community. Do the right thing.

With respect,
Adam Sepulveda

Dear Mrs. Barnes,

My name is Merly and I am a resident of Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will hurt the citizenry more than it already has. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino and 12% were Black. Additionally, most of these deaths have occurred in Districts two, three, four, and five. According to census data, these four districts have a high concentration of Latinos and is generally low-income. However, District Six has only ever experienced one homicide during the period of 2003-2016. As you can see, this data suggests that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of discrimination in my city. This kind of systemic racism is what will continue to plague the city if nothing is changed. Instead of allocating a majority of the city's proposed general fund to the police department, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. In case the message has not been clear, let me take some time to clarify. Defund the police. You have the power to edit, revise, and the city's proposed budget, and I personally believe the citizens of Anaheim could use as many resources as possible especially in a time of a global pandemic. The city should help its citizenry instead of harassing it. Thank you.

Subject: ORANGE COUNTY: RESTRUCTURE THE BUDGET AND DEFUND THE POLICE NOW.

My name is Celeste Maldonado. I am a resident of Orange County and I am emailing to demand the restructuring of the budget in all Orange County cities, so as to prioritize more social services for communities, and to drastically minimize spending on Police.

I demand of the mayor, controller, and all city council members to prove their love and dedication to the people of their city and reallocate funds to directly benefit those in need.

It is absolutely absurd that 50 million of our tax dollars are going to the police force and only 9 million is allocated towards community development. We deserve better than this.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Just this last fiscal year of 2019 Orange County sheriff's officials outspent their revenue budget by \$33 million – prompting county supervisors to pull millions of dollars from other departments like the Health Care Agency to cover the shortfall. Mean while these healthcare workers have to so to work with out proper PPE equipment during a nationwide pandemic.

It is clear that we need change and that the way these funds are being spend and

overspend needs to change. There are communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Celeste Maldonado

Subject: 6/9/20 Council Meeting

Anaheim City Council,

My name is Blanca Navarro and Anaheim is where I've called home and attended school all my life. My parents are homeowners in Anaheim, my sister works in Anaheim and it is where I'm looking to buy my first house too. Anaheim is the home that I love – but it has a lot of work to do.

First and foremost, I ask that you **DEFUND THE POLICE FORCE**. APD receives far too large of a budget every year and enough is enough. That taxpayer money can and should be used to better serve the community and youth in so many other ways: after school programs, scholarships, arts, park beautification to name just a few. At the very least, please start by cutting APD budget in HALF every year.

Secondly, I am disappointed in the curfew that was set this month. The curfew enforcement was a waste of resources, time and money. Along with being an infringement on freedom to assembly, I find it completely useless. I am sick of our hard earned and hefty taxpayer money being used so poorly. And, I'm sick of helicopters over my home every night. The protests never once bothered me, but the curfew enforcement has.

I want to keep our community safe. I want crime to decrease. I want Anaheim to be a place for families, and tourism. But what I do not want is our taxpayer money and property taxes going into what we as a community do not want and do not need.

All my best,
Blanca

Subject: Defund the Police

My name is Daisy Avalos and I am a resident of Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will continue and increase harm to our citizens. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino, and 12% were Black, representing 73% of the deaths due to APD actions. Additionally, most of these deaths occurred in Districts two, three, four, and five. Census data shows these four districts having a high concentration of Latinos and is generally low-income. On the other hand, District Six has only ever experienced one death due to APD during the period of 2003-2016. It is evident that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of systemic discrimination in my city. Systemic racism will continue to plague the city if there is no substantial change. Stop allocating the majority of the city's proposed general fund to the police department, year after year there have been increases to this budget item & it continues to dominate the budget allocation despite reductions due to covid19. About 42% is still proposed to be allocated to police, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. Defund the police. Throughout Southern California we are calling for more police accountability and you have shown that you would rather dominate the streets with force than provide space to discuss the matter. Use your power to edit and revise the city's proposed budget, quit funding draconian overreach by our militarized police force and provide the citizens of Anaheim with as many resources as possible to endure the global pandemic. The city should help its citizenry instead of harassing it. Thank you.

Public Comment

To: Harry Sidhu (Mayor); Public Comment
Cc: Denise Barnes; Jordan Brandman; Jose Moreno; Lucille Kring; Stephen Faessel; Trevor O'Neil

My name is Thuy-Tien Bui, and I am writing on behalf of myself and the citizens of Anaheim. I live in Orange, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would

[cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Thuy-Tien Bui

To: Public Comment
Subject: William Camargo/Public Comment

My name is William Camargo and I am a resident of Anaheim. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than the average for police in California.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also demand the council not to approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. Furthermore, we are calling on our elected officials to stop criminalizing our community members and we refuse to remain silent on the use of technology to further terrorize our community. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

Subject: We Need a Budget That Represents US
Date: Sunday, June 7, 2020 9:06:07 PM

Hello,

My name is Scott Nguyen. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

- Enrich our public schools and students
- Provide more affordable housing and mental health care initiatives
- Protect and bolster our parks
- Support small businesses struggling due to COVID-19
- Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Scott Nguyen

Date: Sunday, June 7, 2020 10:17:26 AM

Hello,

My name is Kimberly Rodriguez. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

- Enrich our public schools and students
- Provide more affordable housing and mental health care initiatives
- Protect and bolster our parks
- Support small businesses struggling due to COVID-19
- Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Kimberly Rodriguez

To: Public Comment
Subject: June 9th meeting public comment

Hello,

My name is Harnadar Anand, and I am a resident of Anaheim since 2003. I call upon the City of Anaheim to end the inherent structural problems within law enforcement. Specifically, I believe the police budget should be slashed by a minimum 30%. Those funds should be reallocated to public health and social services as we experience a pandemic. Furthermore, I encourage the City of Anaheim to end the use of police chokeholds, disband police unions, end qualified immunity for police, and implement a licensing procedure those in law enforcement.

Thank you for taking my comments.

Harnadar Anand
Zip Code 92808

Item # 60820. Distributed to majority of City Council within 72 hours of 6/9/2020 meeting.

Jennifer L. Hall

Subject: BUDGET

Hello,

My name is Lee. I am emailing to demand the restructuring of the Anaheim city budget, so as to prioritize more social services for communities, and to drastically minimize spending on Police.

I demand of the mayor, controller, and all city council members to prove their love and dedication to the people of their city and reallocate funds to directly benefit those in need.

It is absolutely absurd that the police budget is larger than the allocations to the fire department, Office of Emergency Management, Department of Transportation, Bureau of Street Services, and the Housing and Community Investment Agency combined.

While Anaheim PD has more funding than it knows what to do with, there are communities who desperately need funding and every day they don't receive it their quality of life worsens. You have the ability to change this, so do it. Please defund the police and re-invest that money into social services that serve and better the COMMUNITY, since we're the ones paying for it.

Sincerely,
Lee Thorne

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Sam, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would

[cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Sam

Subject: Budget Reform Request

I am a patron of the Anaheim Public Library.

I am emailing as a concerned citizen in regards to the City Budgets for Anaheim. There are currently cuts planned for 20% of the community service budget. Consequently, this means money drawn away from after-school-education including many other services offered at the library. I implore you to reconsider these said budget cuts.

Additionally, I encourage you to adopt budget cuts per The City of Anaheim in looking into giving Anaheim PD more money for security surveillance. Anaheim PD doesn't need more money. Inversely, They need no money from tax payers.

Thank you.

Best,
Andrew Mosher

Subject: We Need a Budget That Represents US

Hello,

My name is Yautenzi Castro. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Yautenzi Castro

Subject: For Council's Consideration (06/09/2020 Meeting)

To Anaheim City Council:

The purpose of the letter is to discourage city employee layoffs. The economic downturn COVID-19 caused is undeniable; however, as the city re-opens, many, if not more, public services will be necessary to ensure that the city is properly served.

It is to the residents and those who patronage this city that we owe allegiance to protect health and welfare, and to ensure economic growth. Layoffs would undoubtedly defeat those purposes. Each city job is integral to either promote health and safety, and/or facilitate business which are reasons why residents choose to live and stay here, and why non-residents of the city choose to come and spend their hard earned time and money in our city.

As the social and economic climates shift in this country, major cities, such as ours, will need to prepare themselves for the onslaught of services the public will need to in order to maintain safety and the upward growth of the city. Many residents, victims of crimes, voters, families, and business owners may not be adequately served for every position lost in a layoff.

The pandemic caused a substantial impact; however, layoffs would only perpetuate the negative effects within the city longer than the pandemic itself. I implore Council to use other measures in an effort to avoid layoffs.

Thank you for your consideration and for the hard work (and decisions) you make for this city.

Sincerely,

Adrienne L. Mendoza

Subject: Anaheim Budget

Hi there,

The city of Anaheim is greatly overfunding police with this budget and needs to seriously reprioritize their ways!

Funding education, housing, and city resources that actually serve and protect people of all races & socioeconomic backgrounds needs to be the new mandate, and will have a dramatic affect on crime. Continuing to perpetrate a cops vs. citizens model disproportionately targeting our black and brown brothers is not what we need in 2020. Listen to the voices protesting around the world. Change is coming. Time to invest in that change in your own community.

Thank you,
Lauren McElroy

Subject: More Community Development...Defund the Police

Born and Raised in Anaheim, my wife too. I also worked and for the Anaheim Y for 8 years, and volunteered with their camps programs for 15 years. I worked predominantly with the teen age group. I bet many Police Officers would be surprised at what a little love and support and belief in their abilities would do to a marginalized teenager (now add in racial profiling). More police, and funding for them, isn't helping. Look at what's happening now. And giving them more funding is telling your community that you don't believe in them, or want them to succeed, because you're putting your money into an entity that is waiting for them to fail because you believe they will. Communities with more parks, more enrichment opportunities for youth, more learning programs for parents, more resources to learn and participate and be a part of something is what makes good humans. MORE money needs to be allocated for those programs and opportunities and infrastructure...not more police. #DefundThePolice

As a long term City employee and 22 year City resident, I am writing to encourage you not to lay off any city employees. The impact on both the employees and the citizens of Anaheim would be disastrous. As a 20 plus year employee, I would hate to stymie potential growth by putting employees out of work. Many of Anaheim's employees are residents of the City and contribute in more than just employment. First, the employees, whether or not they live in Anaheim, spend money in Anaheim and support ancillary businesses. Second, these employees focus on serving the needs of the community. Now that things have finally started opening up, citizens are using our services more often. The need for public safety always exists, but as the economy opens, parks are being utilized, libraries will come back to life, and people will need to have access to conduct business. Eliminating employees will effect this potential growth. Cutting jobs and laying off employees would serve to reduce services and, further, the ripple effect of the loss of money for those families impact everyone. The pandemic has shown us how important community and a sense of normalcy is. Anaheim is at a crossroads. They can be in the forefront of helping stimulate the economy and its citizens at the same time.

I would urge you to find a solution that does not involve the loss of jobs for employees. Several possible solutions could include a temporary reduction in salary, furlough days, sabbatical leaves or retirement incentives. I encourage you to explore all these and other options before laying off valuable city resources.

Subject: No layoffs of City employees

I urge you to NOT include staff layoffs in any plan you propose to balance the 2020-21 budget.

We have been here serving our public even though our facilities are closed due to COVID19 and our predominately part-time workforce in the Library Division will suffer greatly if their income is reduced or removed.

Since the recession of 2009 we have done incrementally more with less: less staff, less books and other materials, and no capital improvements while increasing our programs and services. We are essential and will be even more so as Anaheim residents seek jobs, need support for education and our WiFi will be even more necessary while distance learning continues for many students. Please look at all the ways (in the City Librarians weekly updates to the City Manager and our stakeholders) that we have continued to support and uplift our community.

Sincerely?
Cynthia Hicks

Subject: Community Service Budget

Dear Service Representative,

I am concerned to hear about the community service budget cuts happening in your city. I would love to see some of the money being allocated to security surveillance for the police force moved to fund community service and after school education.

I would love for Anaheim to get publicly behind the BLM movement and act as a leader for this nation by decreasing the funding of your police force and instead allocating those funds to community services, schools, health services, housing, and shelters for those struggling with homelessness.

Thank you for your time and consideration,

Subject: Defund Anaheim PD

Hello, I am a resident of Anaheim and am disappointed to hear City Council's plans regarding cutting community service funds while we are already lacking and funding Anaheim PD even more. I am disappointed because you feel that it's more important to fund a violent and racist organization instead of funding community service programs that can keep people; especially our youth and marginalized folks engaged in our community to help them thrive. I'm disgusted at your disregard for your people and your constant perpetuation of violence. We need to fund Arts & Community Services and encourage folks to engage and be excited, instead you're keeping us distant from each other and making our city cold. I hope you take this into consideration and think about the future of our city and how good it could be if you encourage community instead of police violence.

Subject: Invest in Our Community

In these times of need, though when is it not times of need for institutionally marginalized people?, I demand that the people of Anaheim be protected. I DO NOT MEAN ADDING FUNDS TO THE ANAHEIM POLICE DEPARTMENT! I mean, **FUND AFTER SCHOOL PROGRAMS, FUND COMMUNITY CENTERS, FUND OUR NEIGHBORHOODS, FUND THE SCHOOLS!** AND YOU HAVE TO DO IT EQUITABLY!!!

Y'all want to keep giving money to the Police Department, an institution that disproportionately criminalizes Black, Indigenous, and People of Color, but you're trying to cut down on the community service budget. I don't care that COVID-19 is happening. Y'all want to cut it down, and then in a couple of years again and again. NO! This is our taxpayer money, and I want to see it given back to us.

I have lived in my house for almost 18 years, and the street has never been fixed, but if you go to the predominantly white neighborhood, they get their streets redone every couple of years. My taxpayer money is benefitting a white neighborhood more than my POC community, and I am done with it.

Also, your gentrification projects are trying to push us out. Y'all love bringing in the money, and then turn your back on the people that built up this community for you. For you gentrifiers, shame on you. I'm looking at the people who go into the Packing House because it looks bougie and hipster. Y'all keep investing in your whiteness and the city condones it. For those of you moving into our neighborhoods (into those new apartments), but you don't send your children to our schools, shame on you.

For the City Council Members that support policies and legislation that hurts our community, shame on you. I want equity policies and legislation coming from you. You can start my allocating OUR taxpayer money in more socially beneficial programs, not the Police Department.

Subject: Comments: City Council Meeting - 6/09/2020 (City Budget impact)

To: City Council Members, City Interim Manager, & Mayor:

I am writing to comment specifically on the City Budget & the shortfall as it impacts City of Anaheim employees (Furloughs, layoffs, pay reductions).

- Can someone address the need for employees to fill in financial shortfalls, when the City Council has made decisions recently regarding reallocating \$6.5 million dollars in funds from the Anaheim Convention Center reserve to Visit Anaheim for the purpose of Marketing (a non-city entity that has been getting funding from the TOT taxes)?especially when those reserve funds could have been used to keep & maintain the City of Anaheim staff levelsit is not the fault of the City nor of the City of Anaheim Employees that Visit Anaheim did not maintain a reserve of their own for emergency purposes to maintain their own staffing levels during an economic downturn. I sympathize with Visit Anaheim, but do not feel that the sympathy should extend to impacting City of Anaheim staffing or salary/pay rate levels. Is marketing a \$6.5 million necessity in our current market?
- Another item for discussion is the City Council & Mayors decision to remove the City Manager from office at a cost to the City.....while I don't know the specifics of the reasoning behind him being asked to step down, I did hear that this may have cost the City \$500K+ in resources due to him leaving before the end of his term. Again – another reason why it seems inappropriate to ask City of Anaheim employees to pick up the shortfall when the City apparently has money to spend on items like this during an economic downturn.
- Is a 5% reduction in base salary enough of a hit for the Executive team at their level? A \$200K impact does not seem like a very impactful reduction at their salary levels. I'm assuming City of Anaheim employees will not be asked to take more of a hit than 5% to salary/pay rate impact?

Thank you for your time & consideration.

Subject: City Budget

Dear City of Anaheim,

My name is Brynn Campos and I am a resident of Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will continue and increase harm to our citizens. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino, and 12% were Black, representing 73% of the deaths due to APD actions. Additionally, most of these deaths occurred in Districts two, three, four, and five. Census data shows these four districts having a high concentration of Latinos and is generally low-income. On the other hand, District Six has only ever experienced one death due to APD during the period of 2003-2016. It is evident that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of systemic discrimination in my city. Systemic racism will continue to plague the city if there is no substantial change. Stop allocating the majority of the city's proposed general fund to the police department, year after year there have been increases to this budget item & it continues to dominate the budget allocation despite reductions due to covid19. About 42% is still proposed to be allocated to police, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. Defund the police. Throughout Southern California we are calling for more police accountability and you have shown that you would rather dominate the streets with force than provide space to discuss the matter. Use your power to edit and revise the city's proposed budget, quit funding draconian overreach by our militarized police force and provide the citizens of Anaheim with as many resources as possible to endure the global pandemic. The city should help its citizenry instead of harassing it.

Thank you,
Brynn Campos.

Subject: Defund Anaheim PD and Support Communities

Dear Anaheim City Council,

I urge you to please restructure the budget, in order to orient funds away from the Anaheim Police Department. Do not put community services at risk, especially during a public health crisis. Police surveillance and military grade weapons will not protect communities, and it is the constituents' money that you are disproportionately putting into the hands of the police. Don't invest in stingrays, begin the process of demilitarizing the police. Don't continue to endanger your own community members.

Instead, invest in libraries, they are an essential service that help people of all ages. They protect the public and provide a safe haven in ways that the police rarely do. Turn your attention to public health, Anaheim residents need access to care during this global health pandemic. Provide funds to education and supporting the school system. If you cut funding from public services in order to continue to inflate the police budget, you are promoting the idea that you desire to live in a police controlled state and city. That is unacceptable. Your constituents are watching and we will vote you out if you make a choice that further harms Anaheim.

Thank you,
Sumayyah Jewell

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Andrea Pascual, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately **42%** of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Andrea Pascual

Subject: Budget

Hello, my name is Ernesto Gutierrez. I've been an Anaheim resident for 21 years, and I love this city with all my heart. Please reconsider allowing some of the police budget to be used for other services in the city such as better parks, more mental health resources, and/or other forms of community management. More policing will only make people more distrustful of our city and of the officials that run it. Thank you for your time.

Best,
Ernesto Gutierrez

Hello Council Members,

These have been extraordinary times. We have been tirelessly working to provide all the services to the citizens of Anaheim. We want to continue to do the best we can. Since the great depression, the city staff has not increased. We have been doing more with less colleagues. We are stretched pretty thin. Layoffs will make it almost impossible to meet your agenda. Please do not lay off employees at this time. Please consider other options maybe closing City hall a couple of days a month (citywide furlough), continue visiting city hall by appointment only. Thank you for your consideration and thoughtfulness during these challenging times.

Thank you,

Subject: We Need a Budget That Represents US

Hello,

My name is Lepeka Uilani Sagiao. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Lepeka Uilani Sagiao

Hello,

My name is Stacey. I am a resident of Anaheim, CA and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Stacey

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Kayla Rork, and I am writing on behalf of myself and the citizens of Anaheim. I live in Mission Viejo, CA and my father works in Anaheim. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would

[cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Gabriela Burgos

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Annette Hernandez, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Dulce Benitez

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Siraj Bajwa, and I am writing on behalf of myself and the citizens of Anaheim. I live in Yorba Linda, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. Subject: DEFUND POLICE AND FUND OUR COMMUNITY

To the Anaheim City Council:

[SUBJECT:No on Resolution 5,19 & 30]

My name is Cali Thornton and I am a resident of Anaheim, District 1. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors.](#) Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.
Cali Thornton

And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

These events have caused me to second guess calling the police when we needed them the most. When my brother was experiencing psychological distress we hesitated. He is of filipino descent and we first needed to have a conversation on if it was a good idea. While he has never been a threat to anyone but himself we were worried if he would be perceived as a threat because of his dark skin. We were worried if the officer who responds has training to handle psychological issues. We were worried if something happened, would he then be dragged for his disease while the officer is applauded for his actions.

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. Subject: Prioritize Our Community Not the Police

Hello,

My name is Damar. I am a resident of Anaheim and I am emailing to demand the restructuring of the Anaheim city budget, so as to prioritize more social services for communities, and to drastically minimize spending on Police.

It is absolutely outrageous that 65% of the city's proposed budget for 2020/2021 is allocated towards police and fire & rescue alone. At \$153,803,336, the amended police budget for the previous year alone is larger than the allocations to Providing Necessities, Ensuring the Quality of Life, Administering Efficient Government, and Supporting Activities combined. Although the proposed police budget for the upcoming year is being reduced, it is not enough.

This is the home of the happiest place on earth but many of the residents here are in distress. The poverty rate in Anaheim is 16% which is 7% higher than the national average. Many residents are living paycheck to paycheck. And this same community is very disenfranchised and marginalized.

As of April 2020, the city's unemployment rate is 15.2% which is higher than the national average. This number is alarming considering the national unemployment rate reached its all-time high due to the pandemic. Many families living in the poverty line have been negatively impacted as a result.

I demand of all city council members to prove their love and dedication to the people of their city and reallocate funds to directly benefit those in need. While APD has more funding than it knows what to do with, there are communities who desperately need funding, and every day they don't receive it, their quality of life worsens.

With that being said, in light of the recent murder of Mr. George Floyd at the hands of police I further demand of all the city council members to adopt a program that trains police officers to delink bias from their decision-making. But this is insufficient, I also demand to do training with policy changes and community engagement.

Sincerely,

Damar Valentin

My name is Lepeka Uilani Sagiao. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Lepeka Uilani Sagiao

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is [NAME], and I am writing on behalf of myself and the citizens of Anaheim. I live in [CITY, STATE]. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence. Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.” The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best, Ibrahim Chaudhry

Dear Mayor Sidhu and Council Members,

My name is Katia, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim Hills, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would

[cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Katia

Subject: City Council Meeting Public Comment

Council, Mayor, City Staff,

I have lived in Anaheim for most of my life and have relied on you and your predecessors to make the decisions which serve to keep me, my family, and my community safe. Tonight, I am asking you to listen to my concerns as I am worried that the proposed budget is not reflective of our community's needs. Considering our community's great need for support, I wonder why our city's budget allocates such a large amount of money to the Police Department. This seems misplaced when there are so many other branches of our community which could benefit from greater financial support. I am asking council and city staff to reevaluate the decision to leave our community services (including our childcare services, after school programs, and neighborhood services) without comparable financial support. If we are able to uplift our communities based on the idea of addressing its basic needs, our need for law enforcement will be even lower. This is future I want for my city, for my family, for my neighbors, for my community. I hope that you will hear the concerns of your community at this unique moment in time. We have the chance to build our community in a way which would necessitate even less police intervention than we currently see. This seems commonsense. I hope that you agree.

Thank you,
Katy Gerber

As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence. Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.” The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Yuleysa Baten

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Johnny Hughes and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum

- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best, Johnny Hughes

Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles

- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Kunseo Yoo

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Donna Miranda, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Donna Miranda

Subject: Defund the Police

Dear Councilmembers,

My name is Maria Palomares and I am a resident of District 5, Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will continue and increase harm to our citizens. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino, and 12% were Black, representing 73% of the deaths due to APD actions. Additionally, most of these deaths occurred in Districts two, three, four, and five. Census data shows these four districts having a high concentration of Latinos and is generally low-income. On the other hand, District Six has only ever experienced one death due to APD during the period of 2003-2016. It is evident that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of systemic discrimination in my city. Systemic racism will continue to plague the city if there is no substantial change. Stop allocating the majority of the city's proposed general fund to the police department, year after year there have been increases to this budget item & it continues to dominate the budget allocation despite reductions due to covid19. About 42% is still proposed to be allocated to police, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. Defund the police. Throughout Southern California we are calling for more police accountability and you have shown that you would rather dominate the streets with force than provide space to discuss the matter. Use your power to edit and revise the city's proposed budget, quit funding draconian overreach by our militarized police force and provide the citizens of Anaheim with as many resources as possible to endure the global pandemic. The city should help its citizenry instead of harassing it.

Thank you for your time,

Maria Palomares

And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Subject: City Budget Proposal

Hello,

I am writing to express my extreme displeasure and outrage at seeing that 20% of community service funding is being cut for the City. On top of this, I have been told that there are to be proposed budget increases for the Anaheim PD. This is both irresponsible and morally tone deaf. I urge you to reconsider both of these suggested budget changes.

You absolutely do not need to increase the Anaheim Police Department budget.
Read the room.

Thank you,
Chelsea Anne

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Teresa, and I am writing on behalf of myself and the citizens of Anaheim. I live in Santa Ana, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Subject: DEFUND THE POLICE

Cutting 20% of the budget towards after school education is outrageous. Our youth are our priority and these after school programs will keep them out of trouble. We should get to the root of our issues and help the people instead of wasting this money on the police, they need to be abolished!

Subject: Defund the Police

Dear Mayor Sidhu and Council Members,

My name is Jaime and I am writing on behalf of myself and the citizens of Anaheim. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence. Minneapolis took it a step further and announced their intent to disband the police department due to it being clear that our existing system of policing and public safety is not keeping our communities safe and I ask that you consider taking these steps as well. Defund the police and reallocate that money towards uplifting and caring for the community, it absolutely needs it.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City defund the police and consider implementing the People's Budget. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

My name is Ashley and I am writing on behalf of myself and the citizens of Anaheim. I live in [CITY, STATE]. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence. Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Ashley S

Subject: Police budget

Greetings,

As a concerned voter and anaheim resident, I would like to express my opinion about tomorrow's meeting.

I DO NOT believe more funding needs to be given to the police department for tactical gear or body gear. No more money needs to be spent on applications that you are trying to pass for the amount over \$700,000 or any amount. Money could be given for community outreach programs or any programs for the children and youth programs like ballet, sports, and art.

That being said if the money is needed it should come out from the police department's current budget. Whether it's from general pay cuts or from administrative pay. Cuts can also be from Administration and anyone with pensions as many in these positions end up with a higher than average salary or pension.

Anaheim Police Department has had a long history of police brutality by using excessive force. From using their guns as first resort rather than last resort and murdering a resident. Over the years many of these cases have had to settle between the city and the family of the victims.

Sincerely a CONCERNED citizen
Lizbeth Reyes

To: Harry Sidhu (Mayor); Public Comment
Cc: Denise Barnes; Jordan Brandman; Jose Moreno; Lucille Kring; Stephen Faessel; Trevor O'Neil
Subject: Defund Anaheim PD

For my dearest Mayor Sidhu and Council Members,

My name is Pia Aguilar, and I am writing on behalf of myself and the citizens of Anaheim as a member who lives here. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own gross history of police brutality and obstruction of justice. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

We demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42 percent of our budget will be dedicated to law enforcement. I understand that this is not popular (especially among white liberals and moderates), but defunding the police will pressure them to spend their budget on things that actually matter instead of stockpiling weapons and other military-grade arsenal (which, to remind you, **Anaheim is a city—not a warzone**). Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods—something I’m sure that you have seen by the achievement gap between schools of the Anaheim Union High School District (AUHSD). By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

We must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

•
Mayor Sidhu and Council Members, we should not be on the wrong side of history and instead make Anaheim a model for other cities to follow—history laughs at the losers, so don’t be a loser. You simply cannot say that you (or your affiliates) stand in solidarity with the people if you do not practice what you preach.

This is an open book exam, and there is no reason that you should fail.

We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Cheers,
Pia Aguilar

Public Comment

From: Sunita Townsen-Gumina
Sent: Tuesday, June 9, 2020 12:13 PM
To: Public Comment
Subject: Redirect police funding to necessary social programs

To my government representatives,

My name is Sunita Townsen and I am a resident of Anaheim. I am writing in deep concern for the health of Anaheim's community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. It is unacceptable that Black, Indigenous, and People of Color communities are living in persistent fear of being killed by state authorities like police, immigration agents or even white vigilantes who are emboldened by state actors.

Despite continued profiling, harassment, terror and killing of Black communities, local and federal decision-makers continue to invest in the police, which leaves Black people vulnerable and our communities no safer. Moreover, this deep lack of trust that the government is breeding by terrorizing its own people, rather than safeguarding our health, is an alarming risk for future generations to live peacefully and safely with each other.

The United States does not have a national healthcare system. Instead, we have the largest military budget and some of the most well-funded and militarized police departments in the world. While police and military funding has increased every single year since 1973, funding for public health and community outreach decreased every year, crystallized most recently when the Trump administration eliminated the US Pandemic Response Team in 2018, citing "costs".

The time has come to defund the police. Anaheim is the 9th most violent police department in the United States. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than average for police in California. How can it be that agents funded for "public protection" are responsible for 17% of all homicides in the city (2003-2016)?

In the years 2009 and 2016, 36% of all homicides were in the hands of Anaheim officers. Frankly, this is unacceptable. It is inhumane and impossible to ignore as an issue anymore.

Our city needs a radical increase for funding towards community services and healthcare, especially now while we are still in the midst of a global pandemic. We need youth programs, increased mental health services, neighborhood infrastructures, childcare, and community outreach for those who need these services most. We need more funds for rehabilitation and the re-entry process for formerly incarcerated individuals, and to help increase employment and education rates. I implore you to redirect funds from the police to the important social programs that will actually strengthen our community.

Police officers are usually called to respond to nonviolent issues that trained social workers would be better equipped to handle. Let's redirect funding to these places instead and build a stronger community.

Orange County needs to build a society that does not need this level of policing. I join in solidarity with the freedom fighters in Minneapolis, Louisville, and across the United States. And I call for the end to police terror. I call for defunding of police and for those dollars to be rerouted to strengthen community health system.

Sincerely,
Sunita Townsen

Anaheim, CA 92805

Dear Mayor Sidhu and Council Members,

My name is Ashkon Parto, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Ashkon Parto

Subject: More Support for the community fund

Hello, I want to say that cutting funds from the community is wrong and instead there should be more funding put into the community development. The Anaheim PD have enough of a budget and it is the community budget that is suffering. I want it to change and therefore have a better community to live in and support. Thank you

Subject: Decrease police funding

Dear Mayor Sidhu and Council Members,

My name is Eunice, and I am writing on behalf of myself and the citizens of Anaheim. I live in nearby Brea, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Eunice Oh

Subject: Defund the police

Good day,

I can't believe you're going to cut the community service budget by 20% when it's already so vastly under funded. Yet you're considering giving more money to our police department when it is one of the most violent police departments in the country. Please begin to defund the police and put that money into community resources.

Thank you
Kelsey Medlin

Subject: Defund the police is not a punishment.

Hello. My name is Jeffrey Craig and I am an Anaheim resident. I want to express my opinion about the cuts to community budgets and additional funding of police resources. I think this is the absolute wrong way to handle things. I have a masters in Marriage and Family therapy. I got that degree because I wanted to help and serve my community. It wasn't until I graduated that I found out our government does not invest in healing their cities, but instead to keep them under control. I believe the police force having funds 150x of what is invested in community programs is absolutely devastating. I'm not asking you to dismantle the police force. I'm asking that you simply reallocate funds used for "busting criminals" toward building up our youth so you won't have to. When you invest in the people of your city, they will stand by your side. It's time to stop looking at the dollar signs and embody what you swore to do for your community. Part of protecting and serving requires you to advocate for your people. I truly appreciate that the protests in Anaheim have been peaceful. Now let's take action together on that message and build this city into something we ALL can be proud of. Thank you.

Jeffrey Craig

Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Punitively enforce limitations on use of Chokeholds and Strangleholds
- Provide more training on De-escalation techniques
- Provide clear rules to Exhausting Other Means Before Shooting, and Enforce them.
- Ban Shooting at Moving Vehicles without just cause
- Implement Use of Force Continuum

- Require Comprehensive Reporting and Transparency

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Andy Tu

Subject: An idea for consideration

Greetings Honorable Mayor and Council Members,

I have been an Anaheim Public Utilities employee for almost 20 years and have seen many decisions of the Councils over this time. Some difficult decisions are ahead of you and my thoughts and prayers are for you to navigate them with wisdom.

I request that you ensure that there are no layoffs for your dedicated City employees. How can the costs be recovered? An area of savings for the City that I have always noticed is where folks have used Overtime Pay. Too many individuals have nearly or more than doubled their salaries simply by overtime. The top 100 paid employees at Anaheim have been paid \$7,015,117.32 in Overtime Pay alone in 2019 (in addition to their Regular Pay of \$16,114,057.41) – according to <https://transparentcalifornia.com/salaries/2019/anaheim/>.

Eliminating Overtime Pay across the City will significantly reduce the City's expenditures on labor, pension costs, and bring fairness across all employee groups – as some are not eligible for overtime. Doing so will also take away the need for layoffs or any other concessions from all City employees.

Thank you for your time and consideration.

Regards,
~Jason Kornoff

To: Public Comment
Subject: Police funding

To my government representatives,

My name is Austin Allen and I am a resident of Anaheim. I am writing in deep concern for the health my community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. It is unacceptable that Black, Indigenous, and People of Color communities are living in persistent fear of being killed by state authorities like police, immigration agents or even white vigilantes who are emboldened by state actors.

Despite continued profiling, harassment, terror and killing of Black communities, local and federal decision-makers continue to invest in the police, which leaves Black people vulnerable and our communities no safer. Moreover, this deep lack of trust that the government is breeding by terrorizing its own people, rather than safeguarding our health, is an alarming risk for future generations to live peacefully and safely with each other.

The United States does not have a national healthcare system. Instead, we have the largest military budget and some of the most well-funded and militarized police departments in the world. While police and military funding has increased every single year since 1973, funding for public health and community outreach decreased every year, crystallized most recently when the Trump administration eliminated the US Pandemic Response Team in 2018, citing "costs".

The time has come to defund the police.

Anaheim is the 9th most violent department in the U.S. This is not what we stand for. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than average for police in California.

How can it be that agents funded for "public protection" are responsible for 17% of all homicides in the city (2003-2016)? In the years 2009 and 2016, 36% of all homicides were in the hands of Anaheim officers. Frankly, this is unacceptable. It is inhumane and impossible to ignore as an issue anymore.

Rather, our city needs a radical increase for funding towards community services and healthcare. We need youth programs, increased mental health services, neighborhood infrastructures, childcare, and community outreach for those who need these services most. We need more funds for rehabilitation and the re-entry process for formerly incarcerated individuals, and to help increase employment and education rates. We need to build a society that does not need the level of policing.

I join in solidarity with the freedom fighters in Minneapolis, Louisville, and across the United States. And I call for the end to police terror.

I call for defunding of police and for those dollars to be rerouted to strengthen community health system.

Sincerely,

G. Austin Allen

Anaheim, CA 92805

Mayor Sidhu & Council Members,

As City employees, we are writing today with respect to the City's budget. We understand the significant financial impact that the City is currently facing due to the COVID-19 pandemic and that tough decisions will need to be made. However, we are urging the City to not employ lay-offs and instead pursue alternate options.

Employees are at the heart of every great organization and Anaheim is no different. City employees are committed professionals who serve this community and our millions of guests day in and day out. As part of the Anaheim family, employees look forward to continuing to support this amazing City as we rebound from the COVID-19 pandemic and come back stronger than ever.

Subject: Anaheim Budget Deficit

Members of the Anaheim City Council,

As a husband and father who is the sole provider for my family, I ask that the city not layoff any employees. Personally, a layoff would be a detriment to my household. Anaheim is a world class city and I believe that our staff are essential in providing world class service. We care greatly about the City and will continue to provide excellent service regardless of the situation we all face. Again, I strongly believe that a layoff would be detrimental to the residents and employees of the city of Anaheim.

Kind regards,

Peter King

Subject: Anaheim Public Library Funding on Euclid

Hello,

I am a citizen of the city of Anaheim and I would like to inquire about the status of the Euclid branch of the public library between Cerritos and Ball. This library was where I spent the majority of my time as a child from a low income household. In the last 20 years I have not seen any major projects to renovate or improve the library. I would like to call for immediate steps to start renovation for the physical structure of that library.

As an adult with much more influence both financially and politically, I am committed to donating my books, my time and my resources to encourage the students and citizens of Anaheim to use the public library by MAKING it a comfortable place to be. However, we all understand that individual commitments are not enough to be sustainable and moreover the financial responsibility to upkeep public resources is NOT a responsibility of the individual citizen but of the collective governing body. I demand that the funds for this renovation be taken out of the Anaheim Police Department budget. To have a police budget that is able to access 153.8 million USD annually and see that this library has not been updated significantly in 2 decades is ludicrous. A library provides a high return of public good and value for any democratic society to make a more educated and economically stable population. Librarians, cleaners and other public employees of the library should be compensated according to their value. The value that they provide is much greater than any service that uses violence to enforce compliance. If there are any librarians whose salaries are lower than the highest paid police officer this needs to be rectified IMMEDIATELY, with back pay. This can also be taken out of discretionary funding that would otherwise be designated to police resources. People who are able to have access to a public space to safely exist and citizens who are taken care of by their city are exponentially less motivated to commit violent crimes. And of the few violent crimes that occur each year, how many individual police officers are needed to defuse 1 or 2 situations each year? The answer is none because the police have access to tools of violent force and what we need is deescalation, not escalation by the mere presence of deadly weapons. We are seeking a better society and that cannot happen without the abolishment of an inherently violent police precinct.

I support the dissolution of the police institution in our local government by first divesting Anaheim PD of public funds by taxpayers. For officers that are worried about losing their jobs, I recommend first the dissolution of the police department and then that the jobs that will be created out of investing the funds that rightfully belong to the community into community upkeep and renovation will be open for application such as parks and recreation, community outreach in the creation of public gardens that can feed the food insecure in our city, more teachers for Anaheim schools and building more schools to properly serve the children of Anaheim, and even potentially a charter to start a community college in Anaheim to provide accessible education to our citizens.

We are not asking, we are demanding. This is our taxpayer money to do what we want and what the people want is investment in the community that we have sorely neglected for the past few decades. The first step in our local participation is to find an independent contractor with no ties to city officials and therefore no conflict of interest to start construction on the Euclid branch Anaheim public library and take advantage of the time we are forced to stay at home during covid19. Construction, modernization, architectural design, cost of adding more books and media, salary increases to ALL employees of Anaheim public libraries including librarians, cleaners and clerks can all come out of the police budget for 2019-2020 and every single year from here on out.

The citizens are mobilized. Make sure you enact the will of the people. We will be keeping an eye out to make sure that the reaches of political corruption will not continue in our city. Abolish the police.

From a lawful, hopeful citizen of Anaheim,

Ivy Tran.

Subject: Defund the Anaheim PD

Dear Anaheim City Council,

As an alumni of Chapman University and past resident of Orange County, I am writing in solidarity with the community of Anaheim to urge the Anaheim City Council to defund the Anaheim Police Department. From 2019-2020, \$153.8 MILLION dollars were allocated to the Police, and only \$1 Million to Community Development.

Instead of arming your police department with stingrays for \$700,000, we demand you reallocate funds towards programs that will help people such as public housing, healthcare, education, mental health counseling, drug counseling, and other social services. I am outraged that the city's response to police brutality is to put stingrays in the hands of the police, only further weaponizing the force. This does not tell your community that you are fighting to protect and serve them.

I am disgraced to have patronized the city of Anaheim, whose police department ranks NINTH DEADLIEST of 60 major US cities. This is unacceptable, it is racist, and it will not be tolerated. If you TRULY want to protect and serve your communities, you will invest in public programs that are in place to help your community members, not kill and imprison them.

Thank you for your time and consideration and I hope you read every single email you receive and take in what each community member is trying to tell you. Please on behalf of your community DO THE RIGHT THING. People's lives are counting on your choices.

Sincerely,
Alison Pirie

Subject: City Budget

Dear City Council,

I understand that you have some tough budget decisions to make in the near future. As a long time manager at the City of Anaheim (20 years), I know how important all staff are, and especially the most vulnerable, part-time staff. I implore you to please consider all options besides layoffs. I, personally, would rather accept furloughs or a pay cut before seeing anyone lose their jobs.

Thank you for your consideration.

Chris Carter

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Sana Azam, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim Hills, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles

- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Sana Azam

Subject: Anaheim Police Department

Congratulations

What a tremendous display of our over-bloated Anaheim Police Department. Thank you for showing us the heavy military grade equipment our police have been hoarding year after year to better dominate our streets. It was a great display of over allocated budgets, increased militarization, and a local government that will create a warzone out of fear of its citizens. Our streets look nothing like a 'world class city' and more like a violent poverty stricken country. Out of fear. We remember all the times our own Police Department brutalized our neighbors, one of the latest right down the street from me, on Palais, after an off-duty cop harassed and discharged his gun at kids after school. Are you ready to create change like our community is?

After covid related budget reductions, the budget allocated for the Police is still at about 42%! Only a 17% reduction from 2019, and still an overwhelming part of our budget. After covid! I don't see how such a high allocation of the budget to the Police Department will help guide our city out of this current health & financial disaster. We need to diversify our expenses to better deal with the emergencies facing Anaheim & region. Please listen to the many calls for defunding the Police. They are not equipped to properly address all the situations that will arise due to covid impacts. They have shown time and time again that they are not the solution. Furthermore, adopt the 8 can't wait recommendations to reform police actions NOW! The eight policies include banning chokeholds and strangleholds, banning shooting at moving vehicles, exhausting all alternatives before shooting, requiring that all use of force be reported, requiring a warning before shooting, requiring officers to stop another officer from using excessive force, and limiting the types of force and/or weapons that can be used to respond to specific types of resistance.

There has long been over-enforcement, and heavy use of force against our own citizens to justify a bloated department that produces only burdens for our city. Some of you were so proud to show off such a great force. In the streets, like many times before, were mostly kids & supporters peacefully yet angrily expressing their frustration at the many years of police brutality on our own streets. You created a warzone around our neighborhood jewel, the library. They had worked so hard to maintain normalcy, by hosting curbside library lending for the many families that depend on it for enrichment & child development. I condemn the police for making this community center look like a danger zone, inaccessible to the community. It is embarrassing.

Do better,

Edgar Arellano

Attached Closed Session Comment for June 9, 2020 Council Meeting.

Anaheim City Council Closed Session Comments, June 9, 2020,

VIA EMAIL TO: publiccomment@anaheim.net

FROM: Home Owners Maintaining our Environment

The corrupt Anaheim City Council has little concern for the people of Anaheim.

An example is the secret closed session item that has the completely incompetent Human Resources Director in a position she has no expertise or formal education.

The HR Director was made HR Director in order to justify doubling her yearly compensation to keep her quite about her Magic Black Bag crime.

The purpose of squandering city funds in ridiculously high compensation to so many Anaheim employees is essentially to keep them quiet about their knowledge of illegal activities within the city of Anaheim.

The just terminated Anaheim City Manager has criminal information concerning Mayor Sidue and his cabal of councilmembers. That information could put several members of those Anaheim City Council members in prison. To keep him quite, he has received a "Keep Secret" settlement agreement paying him hundreds of thousands of dollars from the taxpayers of Anaheim.

Previously, the Anaheim city council terminated the Anaheim police chief and gave him a \$750,000 "Keep Secret" agreement. That police chief, like the city manager, had knowledge of criminal conduct by council members and their staff. That information included the Magic Black Bag trick that cheated the only Latino council member into having his term in office reduced by two years.

The Walt Disney Corporation, using the influence from spending in excess of a million dollars to elect Anaheim councilmembers, has selected Assistant City Manager, the "Uncle Tom" Greg Garcia, to be Anaheim's Interim City Manager. Greg Garcia is a proven Disneyland supporter and neglects the residents of Anaheim that are mostly Latino.

Greg Garcia proved his loyalty to Disneyland by his vigorous opposition to the pro-Latino District Elections for Anaheim. He was at the time in charged of the district election informational meetings where he consistently ran the meetings in a bias manner, and falsified the meetings' minutes.

Subject: Public Comment on Closed Session

Anaheim City Council:

I am writing to encourage you not to layoff city employees. The impact on both the employees and the citizens of Anaheim would be disastrous. There is no way that services will not be impacted by the proposed cuts. Further, we do not want to stymie potential growth by putting employees out of work.

The employees, whether or not they live in Anaheim, spend money in Anaheim and support ancillary businesses. These employees focus on serving the needs of our community. Now that things have finally started opening up, citizens are using our services more often. The need for public safety always exists, but residents will need other services more than ever. For example, parks and recreational areas are being utilized; they need our support. Further, the city has a rich tradition of library programming that will need staff to help nurture minds foster learning. Businesses will need to be re-opened and new businesses need to be started. With that, people will need to feel safe and have access to the city offices and the city to conduct business. Cutting services will have a chilling effect. Cutting employees will nip this potential growth in the bud.

The ripple effect of the loss of services and jobs will impact everyone. The pandemic has shown us how important community and a sense of normalcy is; Anaheim is at a crossroads. The city is in a position to be in the forefront of helping stimulate the economy and its citizens at the same time.

I have a personal stake in the layoffs as I am relatively new to the Anaheim City Attorney's office, although I was hired with over 15 years of experience. If I am laid off, the city will lose a very experienced attorney with knowledge and expertise that cannot be easily replaced. I urge you to find a create solution that does not involve the loss of jobs for our hard-working employees.

Kira Rubin, J.D., M.B.A., M.P.H.
Deputy City Attorney II
Office of the Anaheim City Attorney – Criminal Prosecution Section

Subject: Item 1, Council agenda June 9, 2020

Dear City Clerk,

Please distribute to the City Council and confirm that you received this email.

Dear Mayor and City Council,

In times of crisis, our fundamental views shift, and for many the COVID-19 pandemic has given us a new view of what's "essential."

Frontline services that City employees provide as many shelter at home – and the frontline City workers who have provided them – are now visible and valued. City employees have stepped up to the front lines protecting residents, supporting the local community and helping to keep businesses afloat.

These actions have served as a model – and they have come at a significant cost.

But now the very front lines that kept us safe are in jeopardy.

Due to the unprecedented, multifaceted COVID-19 response, including the shutdown of our local economy, the City is facing a revenue shortfall over the next year.

The City reports they are considering cutting or furloughing City staff and/or reducing public services, and may take both actions. Public works services will be adversely affected and there will be more cuts to many other municipal services.

The crippling impact to the City's budget will impact residents, businesses and City workers. The same City workers who have been on the front lines throughout this crisis working tirelessly to protect and serve our City's residents will be facing layoffs, and the community will be hit by cuts to essential services.

Job cuts will not only hurt essential City workers and their families but will adversely affect their lives as well. The City will cut planners, public works engineers, prosecutors and other essential local government workers and the core services they deliver. This means delayed repairs to streets and sidewalks, and limited hours for parks and senior centers, just to name a few of the core services under threat.

The stakes are too high.

The City should support critical local services and the City workers that provide them.

Council policymakers face a formidable task building the City's budget for the coming year. While I know there will be tough decisions about how to allocate funds to best position the City's recovery, one thing is clear: City workers are essential, both to our safety and to our recovery.

City workers are the engine of our City, and the recovery from the COVID-19 crisis starts with them.

The road to recovery will be long and hard but it will be even longer if we let our City workers go instead of harnessing their vital economic and social strengths. Providing funding for City workers is not optional – it is a necessity if we want a vibrant City services and strong economy.

Please do not layoff City employees. Find another way to balance the budget.

Moses Johnson, Acting President AFSCME/MAC

To: Public Comment
Subject: I support cannabis in Anaheim

Hello Anaheim Council Members,

My name is Jakki Hernandez. I am a 39 year old married woman who resides in Anaheim district 2. I am a medical cannabis patient who consumes the plant due to multiple autoimmune conditions that affect my nervous system causing chronic pain. Coming from the perspective of a patient, I am pleading with you to allow legal cannabis shops in our city.

The sad truth is whether you allow it or not, they are here.

As a patient I know first hand how hard it is to obtain medicine that is trusted and consistent to treat my chronic pain. I was fortunate to have found a plant that allowed me to get off of every opiate the doctors prescribed me for a better part of a decade. It also removed a lot of the other prescriptions those opiates caused me to need to help with my digestive tract issues from years of prescribed opiate use. I was born with a condition called Neurofibromatosis. This condition is where tumors grow on and around your nervous system. As many with autoimmune disorder, once you have one you are prone to more. After a fall, I broke my foot and later developed another pain condition called Complex Regional Pain Syndrome that also affects the nervous system and is often described as the most painful chronic pain condition to have.

Today, I have more tumors on my body than I can count, I have had 8 surgeries to remove 100s of tumors growing from my head to my feet. Before my first surgery, I was hospitalized for 2 months because the pain had grown so intense, and the tumor was growing internally and externally affecting the way I walked and even sat. As I was hospitalized and pumped full of morphine it occurred to me, why are they giving me synthetic heroin (morphine) when they could easily give me a natural plant, cannabis? Fast forward to when they released me from the hospital with a medication list of painkillers, stool softeners and methadone along with instructions that they were too scared to remove any tumors because they were connected to important nerves. I knew this diagnosis was far too bleak for a 22 year old to hear. They were hoping I would find relief through their cocktail of medications, but of course it did not help. It actually affected me way more than any joint ever did.

Needless to say, this led me back to the emergency room to get catheterized since all my muscles were so overly doped up. I couldn't go to the bathroom on my own. After a brief candid discussion with my doctor led me to the realization I had been severely over medicated and these medicines were not even helping relieve the pain. I cried to myself, "there has to be a better way." At that moment I told my loved ones, even if I scream do not give me these pills. The next few days led me to a terrible 6 day withdrawal that made me promise myself I would never take another pill again. I was hallucinating, vomiting, shivering, sweating, and even had to stay in a bath of hot water for most of the day to deal with the debilitating pain my body experienced. Over 15 years later, I can now say I am completely off of the drugs the doctors prescribed me.

As a consumer/ patient of cannabis for over 15 years I can with 100 percent certainty say there is no withdrawal when omitting the medicine from my life, and I have not developed an addiction. I have gone without, but why would I when this plant is what gives me the ability to be, "pain - less" enough to be a functional member of society.

I am able to consume an edible or a cannabis tincture multiple times a day just as I would use a Vicodin or a Norco given by a doctor, to help me with my internal tumor pain and apply cannabis topicals to help with the pain on top of my skin. Cannabis is now the only type of medication I consume. To think, my very own doctors told me that nothing could help me. Actually, the last thing I heard from a pain management doctor was, "I would have to live with a morphine pump in my spine for the rest of my life, in order to find relief and function." Morphine would be like my insulin if I were a diabetic. This should never be someone's way of life if a plant can give a person better relief with no harmful side effects. I am so glad, I did not listen and I did my own research. Plants over pills is now a slogan I use daily.

This is why I am an advocate for cannabis legalization. I am close to this industry and recently left the cannabis retail space in Long Beach. I have spent the last 15 years helping other people like myself live a life with less discomfort and little side effects. Not every person has my story, and that is why it is important to have educated people working in these state regulated cannabis shops. The licensed stores not only bring safe and consistent medicine to those that need it most. They also improve the city they are placed in, by following the guidelines in place and bringing security to a neighborhood that normally doesn't have it.

I can personally attest to our licensed cannabis shop improving the city; from our security protecting the neighborhood to our local city cleanups I noticed first hand providing safe access not only is a necessity for patients like myself but it can also build up a neighborhood. We checked i.d and only let those 21 years of age or older purchase products, had to enter all items exchanged with vendors into a system tracked by the state and everything had to be tested to enter our store. These are not exclusive to my store, they are the rules all legal shops follow in order to protect the consumer also which the consumer pays heavily for through taxes. This is a major benefit for cities since the taxes they pay can go back to rebuilding roads, schools and also funds anti drug programs.

Illicit shops are not obvious to the layman that they are not legal. This means all types of people will walk in and obtain the products behind the counter. By continuing to permit the non licensed cannabis shops in Anaheim your residents and tourists are affected by many consequences of the illicit market.

1. The products sold in unregulated shops are not lab tested.
2. Safety is a large concern, these shops do not have security guards.
3. Often contain harmful chemicals, mold or are sold past the expiration date
4. The products are sold to anyone, with no consideration of any age or health condition.
5. Allow consumption on premise
6. These shops at times place taxes on the consumer, and since the shop is not regulated or licensed 100% of those profits goes directly to the underground drug market in Anaheim. This also confuses your residents, since it appears the shop is more legitimate when they see taxes on the receipt.
7. Our citizens and visitors are duped into shopping at these stores believing they are regulated by the state resulting in the city of Anaheim, it is not common knowledge that the only current city allowing licensed cannabis is Santa Ana.
8. The Anaheim residents do not know they are shopping in a black market store or that these shops are selling counterfeit products in packages that otherwise, are sold in the regulated cannabis market.

Not providing competition for these illicit shops allows them to continue to manipulate and harm the Anaheim residents and its visitors. Providing options for the patients and consumers to shop local and buy legal will not only bring in revenue and jobs from these essential workplaces but will provide safe access to regulated products for anyone that visits Anaheim.

I am speaking for the patients when I say, this is a public health issue as they are the ones who know they have compromised immune systems but don't know the products they are purchasing may contain harmful chemicals that could exacerbate their issues or much worse cause severe illness like the most recent vape illness, EVALI that plagued our country. This unfortunate illness comes from the illicit markets vape products. Sadly, some of these products even used the packaging from legal brands to compel the person to buy. Only, the products sold at illicit stores don't have to follow state guidelines to protect their shoppers. Also patients don't always have the means or ability to drive 45 minutes to a county that can serve them. Please think about the patients, it is so difficult to be able to obtain safe and effective plant medicine.

As a former Cannabis Retail Manager, I have seen and spoken to every demographic that would enter my shop. The consensus is, many do not know the difference between a legal and illegal shop. Until that is they have an experience at one. The service is educated and well communicated. The products are all tested and consistent. The brands even come with references for actual medical professionals allowing us to connect actual patients with science based answers to their questions. We can bring this service to our city, we deserve it. Our elderly and immunocompromised citizens deserve safe access without having to drive 40 miles away.

Lets have Anaheim be the city that stands up to the other market by showing the public the difference. Clean tested cannabis products available for our city. We can kick out the black market storefronts by providing legal competition.

Please pass this ballot measure so the residents of Anaheim can choose for themselves in November whether or not commercial cannabis should be in their town.

Thank you for your time and consideration
Jakki Hernandez

Subject: Comments regarding the upcoming June 16th City Council meeting

Dear Mayor Sidhu and members of the City Council,

My name is Andy Murphy and I am a resident of Anaheim living in the Colony Park neighborhood. I have a few comments for you to consider regarding the upcoming city council meeting.

Item 19: I question the need for this purchase. While I can see that it has value in helping the police department do its job in investigation crimes, I wonder if we need our own unit. The staff report indicates that the prior unit was only used approximately 100 days out of the year. This is a large investment that would only be used 27% of the time.

I wonder if it is possible to share this purchase with other near by cities. Perhaps Fullerton, Orange, Anaheim, and Garden Grove can purchase together and share this cost among each other. Has the police department and/or council considered this option? In these tough economic times, we need to think of every possible way to stretch our tax dollars to provide the most benefit.

Item 22: I support this consent item

Item 26: My only question with this consent item/ordinance is to make sure that the end user that is renting the hotel room is informed of the tax at time of booking. I would hate for the city of Anaheim to get bad publicity, because they were asked to pay the TOT tax if they were not advised that it would be collected.

Item 28 & 29: I do not support allowing marijuana businesses in our beautiful city of Anaheim. We have to remember that not only are we a city of residents and businesses, but many people from around the world come to our city to enjoy the entertainment options that we offer that are unique to Anaheim. We must remember that some people come from areas where they might not be exposed to marijuana and the related businesses. This can be upsetting to many families who may not want to expose or have to explain to their children what marijuana is. I must also remind you that marijuana is still federally an illegal drug. This has the potential to cause problems with the federal government in the future. In addition, I believe that 80 businesses is far to many to have in our city. Please do not allow these businesses to ruin our city.

Item 30: I support this ordinance. We must do what is necessary to continue to keep our city safe. While I hope that protests remain peaceful, we must be prepared in the event that bad people show up and want to cause damage to our residents, businesses, and properties.

Thank you for considering my opinions.

Sincerely,

Andy Murphy
Anaheim resident

Good afternoon,
Please pay special attention to recommendations NOT implemented. You need to know what you are about to allow if you vote yes. Here are just a few:

Not implemented: Proper Identification Training (Recommendation #1) — The Bureau should include in its regulations an employee-training requirement on proper identification verification to prevent sales of cannabis and cannabis products to youth at the point of sale or upon the delivery of product.

Not implemented: Hours of Operation (Recommendation #2) — Restore local control over hours of operation. The state can establish suggested operating hours however, local government can waive those hours.

Not Implemented: Recommendation #2 — The Bureau and CDPH should work together to create a document that they could distribute jointly to clarify that local governments may further limit the types of activities that are permitted to occur under a microbusiness authorized to engage in level one manufacturing within their jurisdiction. Even though the state permits multiple activities under the license type, the community could restrict certain types of activities if they so choose.

Not Implemented: Video Surveillance (Recommendation #3) — All licensing authorities should require that all areas where waste is stored, processed, handled, and properly disposed of, be covered by video surveillance. Per Bureau comments, implementing the committee's recommendation would increase the costs for licensees to have additional video surveillance equipment and video storage.

Not Implemented: Youth Education and Prevention Programs (Recommendation #8) — CDPH should designate staff and necessary resources to the education of youth and youth prevention programs relating to cannabis.

Not Implemented: Advisory Committee (Recommendation #9) — CDPH should designate / form an advisory committee that would help establish a more comprehensive program including prevention, early intervention and continuing of care.

Not Implemented: Health-Related Claims (Recommendation #5) — The CDPH should develop enforcement provisions to ensure that the public has the ability to challenge health related claims about cannabis and a means to adjudicate evidence for their claims.

Not implemented: Product Liability Insurance (Recommendation #8) — Product liability insurance should be applied to the manufacturer not the retailer within context of statute.

Not implemented: Banking System (Recommendation #9) — The state should continue to explore establishing a banking system for the California cannabis industry.

Hello,

Sorry for the additional note but I also was wondering why there is not one single report from ANY city department that has been battling the ordinance over the past 16 years? I do not understand why these reports would not be included. Is there anyone that can offer an explanation? And have you all seen the packaging that is used at the dispensaries? Are you aware that glass pipe and **GLASS SYRINGES** are sold among every other type of drug paraphernalia you could possibly think of? These are the types of things that should be considered among many others.

Subject: NO on Item #23

Good afternoon,

I find it quite concerning that to my knowledge no one in the addiction industry, especially right here in Anaheim was consulted regarding the cannabis item. The fact that you would consider an item as serious as this without a comprehensive study is unbelievably irresponsible. Not one treatment center or expert was contacted, nor was any governmental agency that deals with addiction on this matter. Why would you even consider voting on an item like this until a comprehensive study is completed and have fully exhausted all aspects of a decision like this? Besides the simple fact that a decision like this goes completely against 2 major initiatives that the City of Anaheim has poured hundreds of thousands of dollars into. The first being the Drug Free Anaheim Program which has placed almost 600 addicts into treatment and the second being the effort in addressing homelessness. Where are the studies on the effect of marijuana in these two areas? Let's also not forget about our children. How shall we continue to teach our children to not use drugs and alcohol if passing an item such as this? Anaheim also has a gang problem if you are unaware. The drug dealers and gang members will go to the dispensaries. The problems will get worse. Meet with HIDTA in Colorado. This item is, even if passed, should not be passed without some basic common sense, public safety regulations. Let us also remember to be realistic in the fact that these businesses still cannot legally bank their money, nor are they federally legal. So if you think you will get your monies worth out of them, whatever that looks like-not sure how you can ethically put a dollar amount of people's lives and our children's values, you won't. They will never report what they actually make, they will cause more problems with law enforcement, the clientele they attract is not typically law abiding citizens, and if you believe any different you are listening to the lobbyists as opposed to the governmental agencies who have to deal with the fall out. Have any of you met with or spoken with HIDTA in Colorado? Do you know what that is? Have you met with the DEA? Or the ONDCP? The FDA? If you have not met with any of these agencies and received in depth studies in this area you should in no way be voting on an item like this as it would be incredibly irresponsible and dangerous. AND TO PUT THIS IN THE IN THE HANDS OF THE PUBLIC BY BALLOT MEASURE WITHOUT THE PROPER RESEARCH IS JUST WRONG!!!

Subject: NO on Item #23

Good afternoon,

I find it quite concerning that to my knowledge no one in the addiction industry, especially right here in Anaheim was consulted regarding the cannabis item. The fact that you would consider an item as serious as this without a comprehensive study is unbelievably irresponsible. Not one treatment center or expert was contacted, nor was any governmental agency that deals with addiction on this matter. Why would you even consider voting on an item like this until a comprehensive study is completed and have fully exhausted all aspects of a decision like this? Besides the simple fact that a decision like this goes completely against 2 major initiatives that the City of Anaheim has poured hundreds of thousands of dollars into. The first being the Drug Free Anaheim Program which has placed almost 600 addicts into treatment and the second being the effort in addressing homelessness. Where are the studies on the effect of marijuana in these two areas? Let's also not forget about our children. How shall we continue to teach our children to not use drugs and alcohol if passing an item such as this? Anaheim also has a gang problem if you are unaware. The drug dealers and gang members will go to the dispensaries. The problems will get worse. Meet with HIDTA in Colorado. This item is, even if passed, should not be passed without some basic common sense, public safety regulations. Let us also remember to be realistic in the fact that these businesses still cannot legally bank their money, nor are they federally legal. So if you think you will get your monies worth out of them, whatever that looks like-not sure how you can ethically put a dollar amount of people's lives and our children's values, you won't. They will never report what they actually make, they will cause more problems with law enforcement, the clientele they attract is not typically law abiding citizens, and if you believe any different you are listening to the lobbyists as opposed to the governmental agencies who have to deal with the fall out. Have any of you met with or spoken with HIDTA in Colorado? Do you know what that is? Have you met with the DEA? Or the ONDCP? The FDA? If you have not met with any of these agencies and received in depth studies in this area you should in no way be voting on an item like this as it would be incredibly irresponsible and dangerous. AND TO PUT THIS IN THE IN THE HANDS OF THE PUBLIC BY BALLOT MEASURE WITHOUT THE PROPER RESEARCH IS JUST WRONG!!!

*Have a beautiful day,
Tamara Jimenez

Dear Council,

I hope you all enjoyed the Memorial Day holiday.

I just read that Dama Financial was selected by the City of Los Angeles to assist them in processing taxes. This is the cashless financial services company that I informed you about in the email below.

The press release is here: <https://www.prnewswire.com/news-releases/city-of-los-angeles-and-dama-financial-partner-to-provide-cannabis-cash-alternative-tax-payments-during-covid-19-crisis-301062326.html>

I do hope you reach out or have already reached out to Ms. Sullivan so she can explain their banking solution to you. As indicated below, I have vetted several financial i situations and financial services companies and this is the only one I am able to confidently recommend to my clients at this time.

Sincerely,

Dana Leigh Cisneros, Esq.

Dear Anaheim City Council,

One of the issues presented during the last council meeting was access to banking and related services, including use of credit cards.

I wanted to introduce you to Michelle Sullivan at DAMA Financial. Dama is an account servicing company that assists cannabis operators with their banking needs and has a cashless payment solution for retailers to use so consumers can make purchases without cash at the dispensary (most operators are violating the rules by using MCC codes that do not transparently disclose that they are processing payments for the sale of cannabis). After vetting half a dozen different institutions over the last two years, Dama is the only company I recommend to my clients. Michelle is the Chief Risk Officer and Chief Operating Officer at Dama and is happy to discuss cannabis banking, cash deliveries and deposits and whatever else finance related. Richie Thorne of Dama Financial is also in charge of their regulatory division; prior to joining Dama, Mr. Thorne was with the Federal Reserve for almost 20 years.

Subject: Re: Thank you re Serrano Center meeting

Dear Ms. Bass,

I am following up on my prior public records requests from early January and also to inquire about the process of requesting a rehearing, ballot initiatives and referenda. I have limited time to file as I understand it.

The council was flatly lied to last night and we, the residents, had no opportunity to comment on the revised CUP, specifically that set backs be required and additional soils reports since our homes rely on support from the land below (the Center), not just from the street. Four feet is ridiculous. Removing soil that supports our properties is ridiculous, especially since we have pools. One tenant was sitting next to me and shared that he pays \$1.89 a square foot. The entire motion last night was premised on this not being a viable center at \$1.35 a square foot and that simply wasn't true. The developer confessed that at \$1.80 it would be viable. They are currently fetching more than that and I think the council should have the true facts before them and reconsider. We also would like them to consider permitting the parking on the surrounding streets since the new residences will have overflow that burdens us.

The county clerk also advised that I need to check with you regarding the numbers required to run a) a ballot initiative and b) a referendum. We have limited time to file those papers as well.

Thank you for your prompt response as time is of the essence.

Sincerely,

Dana Leigh Cisneros, Esq.

Subject: Thank you re Serrano Center meeting

Dear Mayor Sidhu,

First, I am so sorry you have to endure the horrible and racist comments from the public. That is truly shameful behavior. The comments directed at Councilwoman Kring caused me to lose my composure and I apologize for speaking out of order; I could no longer stand by as she was demeaned and attacked from the podium.

I wanted to personally thank you for your support during the last City Council meeting. I hope your fellow council members are equally committed to the general plan's guidance and maintaining the overall SFR, rural aesthetic of Anaheim Hills. The attached letter from the City in 2014 confirms the precise reason this property needs to remain zoned as it is.

I know it was an emotionally charged evening, and I appreciate your patience as this is so very important to all of us in the community. These are our homes, families and lives that we are talking about.

I hope the council recognizes that not a single speaker in favor of the project is actually from Anaheim Hills or even Anaheim for that matter as far as I am aware.

I wanted to also provide another copy of my General Plan analysis that should have been part of the administrative record. I was shocked that the developer's counsel falsely represented that the Planning Commission did not consider thoroughly the analysis under the General Plan. This has been part of the record since 2017 when I first learned (about 2 months after closing on my home) that the commercial center that was a large part of the decision to purchase my home was in jeopardy.

I also wanted to share with you the recent traffic accident that took place near the Serrano Center. Click [here](#) and let me know if this link does not work. This is the reason

all of us residents are trying to convey that the traffic study on total trips is misleading. Contrary to the nurse that spoke at the meeting, I do not think that my life, or that of my son, or any person for that matter, is a sufficient exchange for development of 9 “moderately” affordable housing units. I certainly hope the council will press the developer as to what “affordable” actually means – as in real numbers. Risking our lives so 12 unknown families could possibly afford to live on that property, is not a risk I think the council should take. For reference, I also attached the HUD report for the affordable homes in Anaheim Hills – options are clearly abundant.

Finally, I also wanted it to be part of the record that I worked three jobs in law school and actually supported my mother in my final year of law school because she had fallen on hard economic times (when I was at the age of 25). I attended Van Buren Elementary School, then Bernardo Yorba Middle School, then Esperanza High School, then UCLA (where I also worked several jobs to pay my own way through school and to support myself) and finally Southwestern School of Law. I am the poster child for public education and growing up with limited means. So are many of my friends. Of the 7 girlfriends I maintain friendships with since middle school, only one has received assistance in buying her home from her parents.

Two of us live in Anaheim Hills, one in Orange and three in Yorba Linda (the other one recently moved to Idaho). We all own our homes and we all worked extremely hard to achieve the success we have; most of us also own our own businesses. I am an attorney, two are realtors, two are nurses (one that lives in Anaheim Hills and is a single mom of 2 and her children attend Friend’s Christian private school, the other in Orange and her children attend school in Anaheim Hills – also a single mom), one is a wedding planner and one is a stay at home mom in Idaho. The point is, we were able to grow up here and buy homes in the area. Please do not be fooled by the people cherry picked by the developer to speak at the meeting.

It is truly offensive to have to listen to a billionaire’s attorney claim that the residents of Anaheim Hills lack the work ethic to buy our own homes and become successful in life. The gentleman who prepared the EIR falsely accused us of also being racist and discriminatory against individuals of modest means, and the public outcry was palatable. Not a single resident (we are not claiming the guy that made the horrible comments throughout the night to you and the council and he was not at the planning commission meeting) ever said anything remotely like that. We were all focused on the fact that there is affordable housing in the area and that this location is not suited to condos.

Similarly, claiming that Anaheim Hills lacks diversity is ridiculous. In looking at the council, it looks like the United Nations; so does my street Carnegie, that the Serrano Center backs up to. My son is the only white kid at his current preschool and was one of I think 2 or 3 at Anaheim Hills Elementary where he will be returning on February 1, 2020.

It should be highly telling that not a single Anaheim resident spoke in favor of this development. The strong opposition is documented as well in our community forums attached to this email.

I do strongly agree that housing and affordable housing is an issue, but to eliminate the only commercial center in that area that the residents are clearly dependent on and that supports the community would be a great mistake. This is simply the wrong

location. Moreover, I think we all know this development has nothing to do with providing affordable housing to people.

Sincerely,

Dana Leigh Cisneros, Esq.

From: No Toll Road 2020
Sent: Tuesday, May 19, 2020 4:21 PM
To: No Toll Road 2020
Subject: Please read into the meeting record

The TCA or tollroads a government agency in March of this year voted unanimously to stop looking for an extension to the underused 241 southern portion of the 241 Toll Road. This was after pursuing it for over 20 plus years and spending Hundreds of Millions of Dollars. The Board concluded in March the numerous traffic studies showed that extending the 241 would not alleviate traffic now or 50 years in the future. Based on the evidence that this road would not do anything for tax payers and would cost a fortune the board wisely voted to stop the process.

However, the TCA Board is not ready to stop the excessive spending and want to be able to study it a third time in the future, at what point will this failed agency call it a day? It is important to realize that the TCA collects development fees which makes the our daily life cost more than it should, this is in addition to the TOLLS and penalties.

Please think about your City looking into pulling out the the Joint Power Agreement with the TCA and give tax payers a break. I am not sure if you saw the article but this is just one example of the waste and abuse at the TCA. The article is titled
While you sit in traffic, these tollway consultants charge the public \$185 an hour for reading news, a consultant was billing for 26 hours in a day and raked in \$230,000 for reading the news. The TCA has many consultants and a army of lobbyists on its payroll - for what no one is certain since they have nothing new to say.

Public Comment

From: Denise Colber
Sent: Tuesday, May 19, 2020 4:20 PM
Subject: Public Comments for the council meeting

Please read at the Public comments for the meeting.

Dear City Council,

I am writing to bring to your attention a serious fiscal crisis that may be brewing within the TCA. The TCA – or Toll Roads is a government agency that is also known as the Foothill Eastern and San Joaquin Hills Transportation Corridor Agencies. Since you may have Councilmembers sitting on the board, I am hopefully not telling you something at least some of you don't already know. TCA ridership is down and will be using is facing a potential revenue crisis that could ultimately cause a collapse of the carefully arranged deck of cards that forms its enormous long term debt burden. The TCA has been feeding a growing debt machine for decades. A total long term debt of \$2.9 billion at completion of the two toll roads in 1998 has somehow grown to \$4.9 billion today, despite 20 years of principal and interest payments. The TCA has never had sufficient revenue to handle its enormous debt, but rather than admitting that and allowing another agency to over, somehow your directors and others endorsed repeated refinancing's with capital appreciation bonds, meaning that unpaid interest has been added to the principal each year so that outstanding debt grows rather than diminishes.

At this point, it will take another \$11 billion before these toll roads are "freeways"- if ever. And worse, payoff dates have been extended from 2033 and 2040 San Joaquin to 2050 and 2053 for Foothill. Our grandchildren's children may be the first to benefit from decades of tolls and developer impact fees – fees and taxes that will have been paid by your constituents either as tolls or increases in the costs of housing and doing business in the County for over half a century. All of this for two roads that we will have paid for several times over.

Now, with the impact of the covid-19 pandemic, these grossly over-leveraged agencies are poised to finally pay the piper. It is doubtful that revenue will be sufficient to cover debt covenants. While there are some unrestricted assets, these may have to be sold at a loss and may not be sufficient to carry the agencies through an extended period of economic downturn.

At the same time, TCA has recently placed 5 of its board members on the OCTA board and is poised to extend its reach outside its original scope, now wanting to build un-tolled roads for OCTA, and no doubt, get the debt ball rolling all over again.

Please stop this. Enough is enough. A comprehensive State audit of TCA's huge debt load, its bloated expenses and unsustainable financial prospects is long overdue. Taxpayers need you to be responsible and protect us from an agency that has exploded beyond its original intent, burdening taxpayers with unending fees and tolls to feed a ravenous debt machine. I strongly urge your TCA representatives to take a good look at these agencies and take action now to stop this while we still can. TCA needs to focus on its original charter – stop expanding, pay off its debt, and go out of business as soon as possible.

Thank you.
Marie S.

Public Comment

From: Michelle Schumacher

Subject: Public Comments for the Next Meeting - please read into the record & share the chart
- thank you
Attachments: fiscal comparison 2014-2019 .xlsx

The TCA – the Toll Roads - the Transportation Corridor Agency a Government Agency with Broken Agreements, Broken Trust and over all a Financial Boondoggle. Tax Payers Deserve Better

The 73 toll road was supposed to be free in 30 years, instead billions of dollars are still owed and the TCA is now automatically increasing tolls 2% a year, continuing to drive up housing costs and the cost to do business in Orange County. The TCA is a Joint Powers Agreement a government agency that was trusted to build the toll roads, pay down the bonds then go away. Instead the least amount of the bond debt is being paid due to the continuous TCA refinances, not only is the bond DEBT growing in the wrong direction but also pushing out the years the toll roads will have to be tolled before being made free as was thier initial promise. We will have paid for the roads 5 times by the time they are ever free to the public.

The TCA wastes millions of dollars on consultants and an army of lobbyist, many TCA employees make over \$300,000 a year, with benefits and pensions that barely anyone in the public sector receive. They sponsor many events from golf to galas, enjoy international travel. They even spent \$35,000 dollars on ONE dinner. They are not good stewards of our hard earned money.

The Joint Power Agreement for the TCA clearly states that Development Fees are to be reviewed annually by the Board of Directors, this is not being done, instead they are automatically increased without required Board review or approval. The Board of Directors has abdicated its power to lobbyists. The Foothill TCA has been collecting Development Fees and has not built anything in over 20 years, with no routes approved on the legislative maps, why are development fees still being collected? Development Fees are a silent tax and are driving up the costs of housing and business in the County. This needs to stop, we have OCTA and Caltrans, we do not need a duplicative redundant agency fleecing residents in Orange County.

In March 2020 the TCA's Board of Directors UNANIMOUSLY voted to stop the South Orange County Traffic Relief Effort which they threw hundreds of millions of dollars at to try and extend the Southern most portion of the 241 which does not get many cars per

day, a complete waste of money and boondoggle. While taxpayers were so thankful of this vote to STOP the process, only 2 months later they are back to thier old tricks and trying to oppose legislation that would legitimize thier unanimous vote 2 months ago. The TCA is speaking out of both sides of thier mouth as usual and sadly tax payers are the ones getting the short end of the stick while consultants and lobbyists bask in the money.

In 2014 the OC Grand Jury issued a solvency warning to the TCA and the County for thier debt level, the Pacific Research Institute found that the TCA's business model was probably not sustainable from the start and the TCA in 2008 asked for a 1.1 Billion dollar bailout, with times getting tough potentially in the future it is time Orange County cuts the fat. The TCA needs to go, it is a good time for you to see if it is still prudent to be a member City of the TCA - it takes 8 cities to pull out.

Attached is a current TCA debt snap shot - please note the time period is of the last TCA CEO's reign - he was making more than the President of the USA to manage less than 90 people. Please stand up for Orange County tax payers and stop the development fees and the untenable future of the TCA, it is time to get smart.

Net income/(loss)		-\$20,613,000.00	\$41,997,000.00	\$6,887,000.00	\$54,519,000.00	-\$13,726,000.00	\$96,516,000.00
Cash & equivalents		\$647,337,000.00	\$777,565,000.00	\$394,480,000.00	\$694,954,000.00	\$1,041,817,000.00	\$1,472,519,000.00
Unrestricted portion		\$149,631,000.00	\$415,773,000.00	\$23,651,000.00	\$224,037,000.00	\$173,282,000.00	\$639,810,000.00
Net position		-\$1,453,701,000.00	#####	-\$1,773,548,000.00	-\$1,694,533,000.00	-\$3,227,249,000.00	-\$3,232,332,000.00
* includes short term portion of long term debt							
Observations:							
1. In the 5 year period, long term debt actually increased by \$319 million or 7%, despite principal repayments - due to interest accretion.							
2. Total debt service to maturity on first glance improved by \$511 million, until we realize that the maturity date for SJHTCA moved out to 2050 - another 8 years of paying tolls, penalties and Development Impact Fees.							
3. Toll revenue increased 44% and total revenue by 40% but the total net position of the two agencies is almost the same (down \$5M)							
4. Operating expenses increased 49% during the period . Professional fees increased 8 -fold (\$933K to \$7.3 million)							
5. Salaries increased 49% as well, from \$5.9 million to \$8.9 million.							
6. Bottom line - revenue is up but they're spending most of it and making little impact on net position.							
7. One bright spot - cash and equivalents are up \$431 million, but a greater portion is restricted by bondholders.							
The \$640 million in unrestricted cash will buy some time, but many investments may have to be sold at a loss to meet debt obligations.							
8. With revenue down significantly - 60 - 70% in March, the revenue impact will likely push TCA out of compliance with debt covenants.							
Source: All data derived from audited financial statements of FETCA and SJHTCA as published in Comprehensive Annual Financial Reports

Subject: Cannabis Activities in Anaheim - Banking and Cash Management Solutions (FINRA compliant)

Importance: High

Dear Anaheim City Council,

One of the issues presented during the last council meeting was access to banking and related services, including use of credit cards.

I wanted to introduce you to Michelle Sullivan at DAMA Financial. Dama is an account servicing company that assists cannabis operators with their banking needs and has a cashless payment solution for retailers to use so consumers can make purchases without cash at the dispensary (most operators are violating the rules by using MCC codes that do not transparently disclose that they are processing payments for the sale of cannabis). After vetting half a dozen different institutions over the last two years, Dama is the only company I recommend to my clients. Michelle is the Chief Risk Officer and Chief Operating Officer at Dama and is happy to discuss cannabis banking, cash deliveries and deposits and whatever else finance related. Richie Thorne of Dama Financial is also in charge of their regulatory division; prior to joining Dama, Mr. Thorne was with the Federal Reserve for almost 20 years.

Sincerely,

Dana Leigh Cisneros, Esq.

Subject: Re: Thank you re Serrano Center meeting

Dear Ms. Bass,

I am following up on my prior public records requests from early January and also to inquire about the process of requesting a rehearing, ballot initiatives and referenda. I have limited time to file as I understand it.

The council was flatly lied to last night and we, the residents, had no opportunity to comment on the revised CUP, specifically that set backs be required and additional soils reports since our homes rely on support from the land below (the Center), not just from the street. Four feet is ridiculous. Removing soil that supports our properties is ridiculous, especially since we have pools. One tenant was sitting next to me and shared that he pays \$1.89 a square foot. The entire motion last night was premised on this not being a viable center at \$1.35 a square foot and that simply wasn't true. The developer confessed that at \$1.80 it would be viable. They are currently fetching more than that and I think the council should have the true facts before them and reconsider. We also would like them to consider permitting the parking on the surrounding streets since the new residences will have overflow that burdens us.

The county clerk also advised that I need to check with you regarding the numbers required to run a) a ballot initiative and b) a referendum. We have limited time to file those papers as well.

Thank you for your prompt response as time is of the essence.

Sincerely,

Dana Leigh Cisneros, Esq.

Dear Mayor, Council and City Clerk,

I need to correct a statement in my email below:

My son attends a preschool in Yorba Linda, but will be returning to Anaheim Hills Montessori. In the excitement of registering him for Kindergarten this morning (for Anaheim Hills Elementary) I wrote the wrong school.

I also noticed that I was relying on the original plan for 9 affordable housing units, but later realized the developer is now proposing 12.

I apologize for those errors and any confusion it may have caused.

Sincerely,

<rfabela@anaheim.net>; tbass@anaheim.net
Subject: Thank you re Serrano Center meeting

Dear Mayor Sidhu,

First, I am so sorry you have to endure the horrible and racist comments from the public. That is truly shameful behavior. The comments directed at Councilwoman Kring caused me to lose my composure and I apologize for speaking out of order; I could no longer stand by as she was demeaned and attacked from the podium.

I wanted to personally thank you for your support during the last City Council meeting. I hope your fellow council members are equally committed to the general plan's guidance and maintaining the overall SFR, rural aesthetic of Anaheim Hills. The attached letter from the City in 2014 confirms the precise reason this property needs to remain zoned as it is.

I know it was an emotionally charged evening, and I appreciate your patience as this is so very important to all of us in the community. These are our homes, families and lives that we are talking about.

I hope the council recognizes that not a single speaker in favor of the project is actually from Anaheim Hills or even Anaheim for that matter as far as I am aware.

I wanted to also provide another copy of my General Plan analysis that should have been part of the administrative record. I was shocked that the developer's counsel falsely represented that the Planning Commission did not consider thoroughly the analysis under the General Plan. This has been part of the record since 2017 when I first learned (about 2 months after closing on my home) that the commercial center that was a large part of the decision to purchase my home was in jeopardy.

I also wanted to share with you the recent traffic accident that took place near the Serrano Center. Click [here](#) and let me know if this link does not work. This is the reason all of us residents are trying to convey that the traffic study on total trips is misleading. Contrary to the nurse that spoke at the meeting, I do not think that my life, or that of my son, or any person for that matter, is a sufficient exchange for development of 9 "moderately" affordable housing units. I certainly hope the council will press the developer as to what "affordable" actually means – as in real numbers. Risking our lives so 12 unknown families could possibly afford to live on that property, is not a risk I think the council should take. For reference, I also attached the HUD report for the affordable homes in Anaheim Hills – options are clearly abundant.

Finally, I also wanted it to be part of the record that I worked three jobs in law school and actually supported my mother in my final year of law school because she had fallen on hard economic times (when I was at the age of 25). I attended Van Buren Elementary School, then Bernardo Yorba Middle School, then Esperanza High School, then UCLA (where I also worked several jobs to pay my own way

through school and to support myself) and finally Southwestern School of Law. I am the poster child for public education and growing up with limited means. So are many of my friends. Of the 7 girlfriends I maintain friendships with since middle school, only one has received assistance in buying her home from her parents.

Two of us live in Anaheim Hills, one in Orange and three in Yorba Linda (the other one recently moved to Idaho). We all own our homes and we all worked extremely hard to achieve the success we have; most of us also own our own businesses. I am an attorney, two are realtors, two are nurses (one that lives in Anaheim Hills and is a single mom of 2 and her children attend Friend's Christian private school, the other in Orange and her children attend school in Anaheim Hills – also a single mom), one is a wedding planner and one is a stay at home mom in Idaho. The point is, we were able to grow up here and buy homes in the area. Please do not be fooled by the people cherry picked by the developer to speak at the meeting.

It is truly offensive to have to listen to a billionaire's attorney claim that the residents of Anaheim Hills lack the work ethic to buy our own homes and become successful in life. The gentleman who prepared the EIR falsely accused us of also being racist and discriminatory against individuals of modest means, and the public outcry was palatable. Not a single resident (we are not claiming the guy that made the horrible comments throughout the night to you and the council and he was not at the planning commission meeting) ever said anything remotely like that. We were all focused on the fact that there is affordable housing in the area and that this location is not suited to condos.

Similarly, claiming that Anaheim Hills lacks diversity is ridiculous. In looking at the council, it looks like the United Nations; so does my street Carnegie, that the Serrano Center backs up to. My son is the only white kid at his current preschool and was one of I think 2 or 3 at Anaheim Hills Elementary where he will be returning on February 1, 2020.

It should be highly telling that not a single Anaheim resident spoke in favor of this development. The strong opposition is documented as well in our community forums attached to this email.

I do strongly agree that housing and affordable housing is an issue, but to eliminate the only commercial center in that area that the residents are clearly dependent on and that supports the community would be a great mistake. This is simply the wrong location. Moreover, I think we all know this development has nothing to do with providing affordable housing to people.

Sincerely,

Dana Leigh Cisneros, Esq.

Subject: Cannabis-the facts, not info from lobbyists

Good evening,

Although I understand some of you will not change your vote by June 9th and I do not believe you will even take the time to go to the follow links and read the information, I do know some of you will. I hope those of you who are wavering in how to vote will take a serious look at the links provided and everything available on the site. Please look at the facts provided by HIDTA, DEA, and the Surgeon General. I would think that as responsible leaders you would hold their opinions in high regard.

Subject: Re: NO on Item #23

Hello,

Sorry for the additional note but I also was wondering why there is not one single report from ANY city department that has been battling the ordinance over the past 16 years? I do not understand why these reports would not be included. Is there anyone that can offer an explanation? And have you all seen the packaging that is used at the dispensaries? Are you aware that glass pipe and **GLASS SYRINGES** are sold among every other type of drug paraphernalia you could possibly think of? These are the types of things that should be considered among many others.

Subject: NO on Item #23

Good afternoon,

I find it quite concerning that to my knowledge no one in the addiction industry, especially right here in Anaheim was consulted regarding the cannabis item. The fact that you would consider an item as serious as this without a comprehensive study is unbelievably irresponsible. Not one treatment center or expert was contacted, nor was any governmental agency that deals with addiction on this matter. Why would you even consider voting on an item like this until a comprehensive study is completed and have fully exhausted all aspects of a decision like this? Besides the simple fact that a decision like this goes completely against 2 major initiatives that the City of Anaheim has poured hundreds of thousands of dollars into. The first being the Drug Free Anaheim Program which has placed almost 600 addicts into treatment and the second being the effort in addressing homelessness. Where are the studies on the effect of marijuana in these two areas? Let's also not forget about our children. How shall we continue to teach our children to not use drugs and alcohol if passing an item such as this? Anaheim also has a gang problem if you are unaware. The drug dealers and gang members will go to the dispensaries. The problems will get worse. Meet with HIDTA in Colorado. This item is, even if passed, should not be passed without some basic common sense, public safety regulations. Let us also remember to be realistic in the fact that these businesses still cannot legally bank their money, nor are they federally legal. So if you think you will get your monies worth out of them, whatever that looks like-not sure how you can ethically put a dollar amount of people's lives and our children's values, you won't. They will never report what they actually make, they will cause more problems with law enforcement, the clientele they attract is not typically law abiding citizens, and if you believe any different you are listening to the lobbyists as opposed to the governmental agencies who have to deal with the fall out. Have any of you met with or spoken with HIDTA in Colorado? Do you know what that is? Have you met with the DEA? Or the ONDCP? The FDA? If you have not met with any of these agencies and received in depth studies in this area you should in no way be voting on an item like this as it would be incredibly irresponsible and dangerous. AND TO PUT THIS IN THE IN THE HANDS OF THE PUBLIC BY BALLOT MEASURE WITHOUT THE PROPER RESEARCH IS JUST WRONG!!!

Subject: Cannabis-the facts, not info from lobbyists

Good evening,

Although I understand some of you will not change your vote by June 9th and I do not believe you will even take the time to go to the follow links and read the information, I do know some of you will. I hope those of you who are waivering in how to vote will take a serious look at the links provided and everything available on the site. Please look at the facts provided by HIDTA, DEA, and the Surgeon General. I would think that as responsible leaders you would hold their opinions in high regard.

Hello,

Sorry for the additional note but I also was wondering why there is not one single report from ANY city department that has been battling the ordinance over the past 16 years? I do not understand why these reports would not be included. Is there anyone that can offer an explanation? And have you all seen the packaging that is used at the dispensaries? Are you aware that glass pipe and **GLASS SYRINGES** are sold among every other type of drug paraphernalia you could possibly think of? These are the types of things that should be considered among many others.

Subject: NO on Item #23

Good afternoon,

I find it quite concerning that to my knowledge no one in the addiction industry, especially right here in Anaheim was consulted regarding the cannabis item. The fact that you would consider an item as serious as this without a comprehensive study is unbelievably irresponsible. Not one treatment center or expert was contacted, nor was any governmental agency that deals with addiction on this matter. Why would you even consider voting on an item like this until a comprehensive study is completed and have fully exhausted all aspects of a decision like this? Besides the simple fact that a decision like this goes completely against 2 major initiatives that the City of Anaheim has poured hundreds of thousands of dollars into. The first being the Drug Free Anaheim Program which has placed almost 600 addicts into treatment and the second being the effort in addressing homelessness. Where are the studies on the effect of marijuana in these two areas? Let's also not forget about our children. How shall we continue to teach our children to not use drugs and alcohol if passing an item such as this? Anaheim also has a gang problem if you are unaware. The drug dealers and gang members will go to the dispensaries. The problems will get worse. Meet with HIDTA in Colorado. This item is, even if passed, should not be passed without some basic common sense, public safety regulations. Let us also

remember to be realistic in the fact that these businesses still cannot legally bank their money, nor are they federally legal. So if you think you will get you monies worth out of them, whatever that looks like-not sure how you can ethically put a dollar amount of people's lives and our children's values, you won't. They will never report what they actually make, they will cause more problems with law enforcement, the clientele they attract is not typically law abiding citizens, and if you believe any different you are listening to the lobbyists as opposed to the governmental agencies who have to deal with the fall out. Have any of you met with or spoken with HIDTA in Colorado? Do you know what that is? Have you met with the DEA? Or the ONDCP? The FDA? If you have not met with any of these agencies and received in depth studies in this area you should in no way be voting on an item like this as it would be incredibly irresponsible and dangerous. AND TO PUT THIS IN THE IN THE HANDS OF THE PUBLIC BY BALLOT MEASURE WITHOUT THE PROPER RESEARCH IS JUST WRONG!!!

Subject: Angels Baseball

Dear Mayor Sidhu and City Council:

Last December, the City Council approved a historic agreement with the Angels. The team committed to staying in Anaheim until at least 2050 and agreed to purchase Angel Stadium from the city at a market-rate price of \$325 million – getting the city out of the stadium business.

We urge you to support Agenda Item 20 on the May 12th City Council meeting agenda by sending an email. It will speed up the benefits of that agreement. The COVID-19 crisis has interfered with the completion of the site inspection segment of the contract. In exchange for moving that deadline from June 30th to September 30th, the Angels agree to move up their Third Deposit payment to the city of \$10 million to October 2nd of this year – instead of sometime in 2021-23.

Furthermore, the team will also speed-up submittal of its Master Plan for the site to May 30th, 2020 – rather than sometime in 2021.

This agreement provides the city with \$10 million in badly needed revenue sooner rather than later. And it quickens the timeline for the development of the stadium site, which will generate hundreds of millions of dollars in economic activity and tax revenue.

Thank you for your understanding and believe you will do the right thing for the residents of Anaheim.

Sincerely,

Brad Chapman and Family

Jennifer L. Hall

Subject: Decrease Police Funding
Date: Monday, June 8, 2020 9:01:33 AM

Dear Mayor Sidhu and Council Members,

My name is Sehr Nazir and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim Hills, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

Ban Chokeholds and Strangleholds
Require De-escalation

Require Exhausting Other Means Before Shooting
Ban Shooting at Moving Vehicles
Implement Use of Force Continuum
Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Sehr Nazir

Subject: We Need a Budget That Represents US

Hello,

My name is Mikyla. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Mikyla

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Emily Kim

Subject: We Need a Budget That Represents US

Hello,

My name is Chase Ramos . I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Chase Ramos

Subject: We Need a Budget That Represents US

Hello,

My name is Nessa Enriquez. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Nessa Enriquez

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Aarsal Bokhari

Subject: We Need a Budget That Represents US

Hello,

My name is Michelle DeSantis. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Michelle DeSantis

To whom it may concern,

I understand there's a budget proposal to cut 20% of the community service budget. Now, more than ever, our children need after school programs, need the employees at the library who read to them, need to be safe and taken care of by our community.

Please do not cut the community services budget.

Please do not give the police more money for surveillance.

After school programs and library programs are perfect examples of how to build strong communities without the need for police intervention.

Redistribute the budget. Do not cut our community service programs.

Thank you,
Emily Johnson

Subject: Concerns about Police Funding
Date: Monday, June 8, 2020 2:42:47 AM

I'm Adrian Bravo, I lived in Anaheim for 17 years. I graduated at Magnolia High school, and I want to talk to you about the arts just a little bit.

The art programs in Anaheim are really good! Trust me, I've seen some amazing things! But the schools campuses for the arts, is not. Magnolia high school, one of the lowest funded schools in the district. It seems like it is. I was in the marching band all 4 years of high school. I would love it if a percentage of the funds for the police department went towards the art programs in the more poor high schools. Whether that be theatre, art, choir, band, marching band, color guard, and dance.

These are such important programs to me. Please reconsider where the funds go. Schools need it way more.

Thank you for your time!,
Adrian Bravo

Subject: Decrease Police Funding
Date: Monday, June 8, 2020 8:04:02 AM

Dear Mayor Sidhu and Council Members,

My name is Rihab Beituni, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education (public schools), homelessness(prevention and support), affordable housing, public parks (playgrounds & walking tracks) and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

Ban Chokeholds and Strangleholds

Require De-escalation
Require Exhausting Other Means Before Shooting
Ban Shooting at Moving Vehicles
Implement Use of Force Continuum
Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Rihab Beituni

Subject: Decrease Police Funding
Date: Monday, June 8, 2020 12:04:35 AM

Dear Mayor Sidhu and Council Members,

My name is Kayla Alarcon, and I am writing on behalf of myself and the citizens of Anaheim. I live in Irvine, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting

Ban Shooting at Moving Vehicles
Implement Use of Force Continuum
Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Kayla Alarcon

Subject: Decrease Police Funding
Date: Sunday, June 7, 2020 11:52:21 PM

Dear Mayor Sidhu and Council Members,

My name is Lauren Price, and I am taking time out of my day to express my, and many others of Anaheim's, demands for the future regarding police funding. I live in Anaheim Hills, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was "disturbing."

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Subject: City Budget
Date: Monday, June 8, 2020 9:58:39 AM

Hello,

I was born and raised in Anaheim. I grew up using the Anaheim public library system. Going to readings as a small child at the Euclid branch. Participating in after school programs at the Central branch. One of my first jobs was a page at the Haskett branch. A huge resource for my family and I that we always relied on and deeply appreciated.

I understand that Anaheim is currently considering cutting 20% of the community service budget. This is unacceptable.

The budget for the police exceeds \$150 million? 15 times the budget for community development. This is unacceptable.

Our police do not need more military grade gear and weapons to use against its citizens. My friends who work in Anaheim's after school programs need to keep their jobs.

Imagine how many programs that serve the community could be bolstered via a 25% reduction in the police budget. That's approximately \$37,500,000.

Fund our libraries. Fund our school. Fund mental health services. Defund the police.

Best,
Erik Varho

To: Denise Barnes <DBarnes@anaheim.net>

Dear Mrs. Barnes,

My name is Merly and I am a resident of Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will hurt the citizenry more than it already has. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino and 12% were Black. Additionally, most of these deaths have occurred in Districts two, three, four, and five. According to census data, these four districts have a high concentration of Latinos and is generally low-income. However, District Six has only ever experienced one homicide during the period of 2003-2016. As you can see, this data suggests that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of discrimination in my city. This kind of systemic racism is what will continue to plague the city if nothing is changed. Instead of allocating a majority of the city's proposed general fund to the police department, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. In case the message has not been clear, let me take some time to clarify. Defund the police. You have the power to edit, revise, and the city's proposed budget, and I personally believe the citizens of Anaheim could use as many resources as possible especially in a time of a global pandemic. The city should help its citizenry instead of harassing it. Thank you.

Dear Mrs. Barnes,

My name is Isaac and I am a resident of Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will hurt the citizenry more than it already has. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino and 12% were Black. Additionally, most of these deaths have occurred in Districts two, three, four, and five. According to census data, these four districts have a high concentration of Latinos and is generally low-income. However, District Six has only ever experienced one homicide during the period of 2003-2016. As you can see, this data suggests that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of discrimination in my city. This kind of systemic racism is what will continue to plague the city if nothing is changed. Instead of allocating a majority of the city's proposed general fund to the police department, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. In case the message has not been clear, let me take some time to clarify. Defund the police. You have the power to edit, revise, and the city's proposed budget, and I personally believe the citizens of Anaheim could use as many resources as possible especially in a time of a global pandemic. The city should help its citizenry instead of harassing it.

Thank you,

Isaac

Subject: ORANGE COUNTY: RESTRUCTURE THE BUDGET AND DEFUND THE POLICE NOW.

My name is Celeste Maldonado. I am a resident of Orange County and I am emailing to demand the restructuring of the budget in all Orange County cities, so as to prioritize more social services for communities, and to drastically minimize spending on Police.

I demand of the mayor, controller, and all city council members to prove their love and dedication to the people of their city and reallocate funds to directly benefit those in need.

It is absolutely absurd that 50 million of our tax dollars are going to the police force and only 9 million is allocated towards community development. We deserve better than this.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Just this last fiscal year of 2019 Orange County sheriff's officials outspent their revenue budget by \$33 million – prompting county supervisors to pull millions of dollars from other departments like the Health Care Agency to cover the shortfall. Mean while these healthcare workers have to so to work with out proper PPE equipment during a nationwide pandemic.

It is clear that we need change and that the way these funds are being spend and

overspend needs to change. There are communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Celeste Maldonado

Subject: 6/9/20 Council Meeting

Anaheim City Council,

My name is Blanca Navarro and Anaheim is where I've called home and attended school all my life. My parents are homeowners in Anaheim, my sister works in Anaheim and it is where I'm looking to buy my first house too. Anaheim is the home that I love – but it has a lot of work to do.

First and foremost, I ask that you **DEFUND THE POLICE FORCE**. APD receives far too large of a budget every year and enough is enough. That taxpayer money can and should be used to better serve the community and youth in so many other ways: after school programs, scholarships, arts, park beautification to name just a few. At the very least, please start by cutting APD budget in HALF every year.

Secondly, I am disappointed in the curfew that was set this month. The curfew enforcement was a waste of resources, time and money. Along with being an infringement on freedom to assembly, I find it completely useless. I am sick of our hard earned and hefty taxpayer money being used so poorly. And, I'm sick of helicopters over my home every night. The protests never once bothered me, but the curfew enforcement has.

I want to keep our community safe. I want crime to decrease. I want Anaheim to be a place for families, and tourism. But what I do not want is our taxpayer money and property taxes going into what we as a community do not want and do not need.

All my best,
Blanca

Subject: Defund the Police

My name is Daisy Avalos and I am a resident of Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will continue and increase harm to our citizens. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino, and 12% were Black, representing 73% of the deaths due to APD actions. Additionally, most of these deaths occurred in Districts two, three, four, and five. Census data shows these four districts having a high concentration of Latinos and is generally low-income. On the other hand, District Six has only ever experienced one death due to APD during the period of 2003-2016. It is evident that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of systemic discrimination in my city. Systemic racism will continue to plague the city if there is no substantial change. Stop allocating the majority of the city's proposed general fund to the police department, year after year there have been increases to this budget item & it continues to dominate the budget allocation despite reductions due to covid19. About 42% is still proposed to be allocated to police, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. Defund the police. Throughout Southern California we are calling for more police accountability and you have shown that you would rather dominate the streets with force than provide space to discuss the matter. Use your power to edit and revise the city's proposed budget, quit funding draconian overreach by our militarized police force and provide the citizens of Anaheim with as many resources as possible to endure the global pandemic. The city should help its citizenry instead of harassing it. Thank you.

Public Comment

From: Thuy-Tien Bui
Sent: Sunday, June 7, 2020 10:00 PM
To: Harry Sidhu (Mayor); Public Comment
Cc: Denise Barnes; Jordan Brandman; Jose Moreno; Lucille Kring; Stephen Faessel; Trevor O'Neil

My name is Thuy-Tien Bui, and I am writing on behalf of myself and the citizens of Anaheim. I live in Orange, CA. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would

[cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Thuy-Tien Bui

To: Public Comment
Subject: William Camargo/Public Comment

My name is William Camargo and I am a resident of Anaheim. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than the average for police in California.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also demand the council not to approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. Furthermore, we are calling on our elected officials to stop criminalizing our community members and we refuse to remain silent on the use of technology to further terrorize our community. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

Subject: We Need a Budget That Represents US
Date: Sunday, June 7, 2020 9:06:07 PM

Hello,

My name is Scott Nguyen. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

- Enrich our public schools and students
- Provide more affordable housing and mental health care initiatives
- Protect and bolster our parks
- Support small businesses struggling due to COVID-19
- Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Scott Nguyen

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

- Enrich our public schools and students
- Provide more affordable housing and mental health care initiatives
- Protect and bolster our parks
- Support small businesses struggling due to COVID-19
- Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Michelle DeSantis

Hello,

My name is Arsal Bokhari. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. My name is Chase Ramos . I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

- Enrich our public schools and students
- Provide more affordable housing and mental health care initiatives
- Protect and bolster our parks
- Support small businesses struggling due to COVID-19
- Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Chase Ramos

To: Public Comment
Subject: June 9th meeting public comment

Hello,

My name is Harnadar Anand, and I am a resident of Anaheim since 2003. I call upon the City of Anaheim to end the inherent structural problems within law enforcement. Specifically, I believe the police budget should be slashed by a minimum 30%. Those funds should be reallocated to public health and social services as we experience a pandemic. Furthermore, I encourage the City of Anaheim to end the use of police chokeholds, disband police unions, end qualified immunity for police, and implement a licensing procedure those in law enforcement.

Thank you for taking my comments.

Harnadar Anand
Zip Code 92808

Item # 60820. Distributed to majority of City Council within 72 hours of 6/9/2020 meeting.

To: Public Comment
Subject: BUDGET

Hello,

My name is Lee. I am emailing to demand the restructuring of the Anaheim city budget, so as to prioritize more social services for communities, and to drastically minimize spending on Police.

I demand of the mayor, controller, and all city council members to prove their love and dedication to the people of their city and reallocate funds to directly benefit those in need.

It is absolutely absurd that the police budget is larger than the allocations to the fire department, Office of Emergency Management, Department of Transportation, Bureau of Street Services, and the Housing and Community Investment Agency combined.

While Anaheim PD has more funding than it knows what to do with, there are communities who desperately need funding and every day they don't receive it their quality of life worsens. You have the ability to change this, so do it. Please defund the police and re-invest that money into social services that serve and better the COMMUNITY, since we're the ones paying for it.

Sincerely,
Lee Thorne

Dear Mayor Sidhu and Council Members,

My name is Sam, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would

[cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penaloza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately 42% of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,
Sam

Subject: Budget Reform Request

I am a patron of the Anaheim Public Library.

I am emailing as a concerned citizen in regards to the City Budgets for Anaheim. There are currently cuts planned for 20% of the community service budget. Consequently, this means money drawn away from after-school-education including many other services offered at the library. I implore you to reconsider these said budget cuts.

Additionally, I encourage you to adopt budget cuts per The City of Anaheim in looking into giving Anaheim PD more money for security surveillance. Anaheim PD doesn't need more money. Inversely, They need no money from tax payers.

Thank you.

Best,
Andrew Mosher

Subject: We Need a Budget That Represents US

Hello,

My name is Yautenzi Castro. I am a resident of Anaheim and I am emailing to demand the restructuring of our city budget, so as to prioritize more social services for our community, and to drastically minimize spending on Police. It is unconscionable that 1/3 to 1/2 of the city's budget is going to the police department.

This does not align with the values that I have as your constituent and I demand that you and other city officials work together to draft and approve a budget that diverts funds from the police department and reallocates them directly to benefit those in need.

Defunding the police and restructuring the budget is an absolute necessity now more than ever. Police perpetuate a pattern of excessive violence and force, especially directed towards Black People and their communities. The police refuse to hold their own accountable and this is unacceptable.

We are in the middle of a global pandemic that has killed 100,000 Americans and more than 40 million people have filed for unemployment. Healthcare workers are without proper equipment and essential workers are not being fairly compensated or protected for the great work they do. We don't need more police, we need more social safety nets. Funds intended for police would be better off being sorted to initiatives that

Enrich our public schools and students

Provide more affordable housing and mental health care initiatives Protect and bolster our parks Support small businesses struggling due to COVID-19 Provide cheaper and cleaner modes of public transportation

Our nation is grieving the deaths of Black Americans that were murdered at the hands of police officers who have yet to be held accountable. While the police department has more funding than it knows what to do with, we have communities who desperately need funding and every day they don't receive it their quality of life worsens. Thousands have died who did not need to. You have the ability to change this, so do it.

Sincerely,
Yautenzi Castro

Subject: For Council's Consideration (06/09/2020 Meeting)

To Anaheim City Council:

The purpose of the letter is to discourage city employee layoffs. The economic downturn COVID-19 caused is undeniable; however, as the city re-opens, many, if not more, public services will be necessary to ensure that the city is properly served.

It is to the residents and those who patronage this city that we owe allegiance to protect health and welfare, and to ensure economic growth. Layoffs would undoubtedly defeat those purposes. Each city job is integral to either promote health and safety, and/or facilitate business which are reasons why residents choose to live and stay here, and why non-residents of the city choose to come and spend their hard earned time and money in our city.

As the social and economic climates shift in this country, major cities, such as ours, will need to prepare themselves for the onslaught of services the public will need to in order to maintain safety and the upward growth of the city. Many residents, victims of crimes, voters, families, and business owners may not be adequately served for every position lost in a layoff.

The pandemic caused a substantial impact; however, layoffs would only perpetuate the negative effects within the city longer than the pandemic itself. I implore Council to use other measures in an effort to avoid layoffs.

Thank you for your consideration and for the hard work (and decisions) you make for this city.

Sincerely,

Adrienne L. Mendoza

Subject: Anaheim Budget

Hi there,

The city of Anaheim is greatly overfunding police with this budget and needs to seriously reprioritize their ways!

Funding education, housing, and city resources that actually serve and protect people of all races & socioeconomic backgrounds needs to be the new mandate, and will have a dramatic affect on crime. Continuing to perpetrate a cops vs. citizens model disproportionately targeting our black and brown brothers is not what we need in 2020. Listen to the voices protesting around the world. Change is coming. Time to invest in that change in your own community.

Thank you,
Lauren McElroy

Subject: More Community Development...Defund the Police

Born and Raised in Anaheim, my wife too. I also worked and for the Anaheim Y for 8 years, and volunteered with their camps programs for 15 years. I worked predominantly with the teen age group. I bet many Police Officers would be surprised at what a little love and support and belief in their abilities would do to a marginalized teenager (now add in racial profiling). More police, and funding for them, isn't helping. Look at what's happening now. And giving them more funding is telling your community that you don't believe in them, or want them to succeed, because you're putting your money into an entity that is waiting for them to fail because you believe they will. Communities with more parks, more enrichment opportunities for youth, more learning programs for parents, more resources to learn and participate and be a part of something is what makes good humans. MORE money needs to be allocated for those programs and opportunities and infrastructure...not more police. #DefundThePolice

As a long term City employee and 22 year City resident, I am writing to encourage you not to lay off any city employees. The impact on both the employees and the citizens of Anaheim would be disastrous. As a 20 plus year employee, I would hate to stymie potential growth by putting employees out of work. Many of Anaheim's employees are residents of the City and contribute in more than just employment. First, the employees, whether or not they live in Anaheim, spend money in Anaheim and support ancillary businesses. Second, these employees focus on serving the needs of the community. Now that things have finally started opening up, citizens are using our services more often. The need for public safety always exists, but as the economy opens, parks are being utilized, libraries will come back to life, and people will need to have access to conduct business. Eliminating employees will effect this potential growth. Cutting jobs and laying off employees would serve to reduce services and, further, the ripple effect of the loss of money for those families impact everyone. The pandemic has shown us how important community and a sense of normalcy is. Anaheim is at a crossroads. They can be in the forefront of helping stimulate the economy and its citizens at the same time.

I would urge you to find a solution that does not involve the loss of jobs for employees. Several possible solutions could include a temporary reduction in salary, furlough days, sabbatical leaves or retirement incentives. I encourage you to explore all these and other options before laying off valuable city resources.

Subject: No layoffs of City employees

I urge you to NOT include staff layoffs in any plan you propose to balance the 2020-21 budget.

We have been here serving our public even though our facilities are closed due to COVID19 and our predominately part-time workforce in the Library Division will suffer greatly if their income is reduced or removed.

Since the recession of 2009 we have done incrementally more with less: less staff, less books and other materials, and no capital improvements while increasing our programs and services. We are essential and will be even more so as Anaheim residents seek jobs, need support for education and our WiFi will be even more necessary while distance learning continues for many students. Please look at all the ways (in the City Librarians weekly updates to the City Manager and our stakeholders) that we have continued to support and uplift our community.

Sincerely?
Cynthia Hicks

Subject: Community Service Budget

Dear Service Representative,

I am concerned to hear about the community service budget cuts happening in your city. I would love to see some of the money being allocated to security surveillance for the police force moved to fund community service and after school education.

I would love for Anaheim to get publicly behind the BLM movement and act as a leader for this nation by decreasing the funding of your police force and instead allocating those funds to community services, schools, health services, housing, and shelters for those struggling with homelessness.

Thank you for your time and consideration,

Subject: Defund Anaheim PD

Hello, I am a resident of Anaheim and am disappointed to hear City Council's plans regarding cutting community service funds while we are already lacking and funding Anaheim PD even more. I am disappointed because you feel that it's more important to fund a violent and racist organization instead of funding community service programs that can keep people; especially our youth and marginalized folks engaged in our community to help them thrive. I'm disgusted at your disregard for your people and your constant perpetuation of violence. We need to fund Arts & Community Services and encourage folks to engage and be excited, instead you're keeping us distant from each other and making our city cold. I hope you take this into consideration and think about the future of our city and how good it could be if you encourage community instead of police violence.

Subject: Invest in Our Community

In these times of need, though when is it not times of need for institutionally marginalized people?, I demand that the people of Anaheim be protected. I DO NOT MEAN ADDING FUNDS TO THE ANAHEIM POLICE DEPARTMENT! I mean, **FUND AFTER SCHOOL PROGRAMS, FUND COMMUNITY CENTERS, FUND OUR NEIGHBORHOODS, FUND THE SCHOOLS!** AND YOU HAVE TO DO IT EQUITABLY!!!

Y'all want to keep giving money to the Police Department, an institution that disproportionately criminalizes Black, Indigenous, and People of Color, but you're trying to cut down on the community service budget. I don't care that COVID-19 is happening. Y'all want to cut it down, and then in a couple of years again and again. NO! This is our taxpayer money, and I want to see it given back to us.

I have lived in my house for almost 18 years, and the street has never been fixed, but if you go to the predominantly white neighborhood, they get their streets redone every couple of years. My taxpayer money is benefitting a white neighborhood more than my POC community, and I am done with it.

Also, your gentrification projects are trying to push us out. Y'all love bringing in the money, and then turn your back on the people that built up this community for you. For you gentrifiers, shame on you. I'm looking at the people who go into the Packing House because it looks bougie and hipster. Y'all keep investing in your whiteness and the city condones it. For those of you moving into our neighborhoods (into those new apartments), but you don't send your children to our schools, shame on you.

For the City Council Members that support policies and legislation that hurts our community, shame on you. I want equity policies and legislation coming from you. You can start my allocating OUR taxpayer money in more socially beneficial programs, not the Police Department.

Subject: Comments: City Council Meeting - 6/09/2020 (City Budget impact)

To: City Council Members, City Interim Manager, & Mayor:

I am writing to comment specifically on the City Budget & the shortfall as it impacts City of Anaheim employees (Furloughs, layoffs, pay reductions).

- Can someone address the need for employees to fill in financial shortfalls, when the City Council has made decisions recently regarding reallocating \$6.5 million dollars in funds from the Anaheim Convention Center reserve to Visit Anaheim for the purpose of Marketing (a non-city entity that has been getting funding from the TOT taxes)?especially when those reserve funds could have been used to keep & maintain the City of Anaheim staff levelsit is not the fault of the City nor of the City of Anaheim Employees that Visit Anaheim did not maintain a reserve of their own for emergency purposes to maintain their own staffing levels during an economic downturn. I sympathize with Visit Anaheim, but do not feel that the sympathy should extend to impacting City of Anaheim staffing or salary/pay rate levels. Is marketing a \$6.5 million necessity in our current market?
- Another item for discussion is the City Council & Mayors decision to remove the City Manager from office at a cost to the City.....while I don't know the specifics of the reasoning behind him being asked to step down, I did hear that this may have cost the City \$500K+ in resources due to him leaving before the end of his term. Again – another reason why it seems inappropriate to ask City of Anaheim employees to pick up the shortfall when the City apparently has money to spend on items like this during an economic downturn.
- Is a 5% reduction in base salary enough of a hit for the Executive team at their level? A \$200K impact does not seem like a very impactful reduction at their salary levels. I'm assuming City of Anaheim employees will not be asked to take more of a hit than 5% to salary/pay rate impact?

Thank you for your time & consideration.

Subject: City Budget

Dear City of Anaheim,

My name is Brynn Campos and I am a resident of Anaheim. I am writing to ask you to reconsider the proposed budget for the fiscal year of 2020/2021. I care deeply about making our community safer, and I believe that allocating 42% of the city's general funds to the Anaheim Police Department will continue and increase harm to our citizens. From 2003 to 2016, 33 people were killed by on-duty Anaheim police officers. 61% of those people who were killed by the police department were Latino, and 12% were Black, representing 73% of the deaths due to APD actions. Additionally, most of these deaths occurred in Districts two, three, four, and five. Census data shows these four districts having a high concentration of Latinos and is generally low-income. On the other hand, District Six has only ever experienced one death due to APD during the period of 2003-2016. It is evident that the Anaheim Police Department targets low-income, minority neighborhoods, and I am disappointed to see this kind of systemic discrimination in my city. Systemic racism will continue to plague the city if there is no substantial change. Stop allocating the majority of the city's proposed general fund to the police department, year after year there have been increases to this budget item & it continues to dominate the budget allocation despite reductions due to covid19. About 42% is still proposed to be allocated to police, the money should go to providing the necessities and ensuring the quality of life, as defined by the proposed city budget for fiscal year 2020/2021. Defund the police. Throughout Southern California we are calling for more police accountability and you have shown that you would rather dominate the streets with force than provide space to discuss the matter. Use your power to edit and revise the city's proposed budget, quit funding draconian overreach by our militarized police force and provide the citizens of Anaheim with as many resources as possible to endure the global pandemic. The city should help its citizenry instead of harassing it.

Thank you,
Brynn Campos.

Subject: Defund Anaheim PD and Support Communities

Dear Anaheim City Council,

I urge you to please restructure the budget, in order to orient funds away from the Anaheim Police Department. Do not put community services at risk, especially during a public health crisis. Police surveillance and military grade weapons will not protect communities, and it is the constituents' money that you are disproportionately putting into the hands of the police. Don't invest in stingrays, begin the process of demilitarizing the police. Don't continue to endanger your own community members.

Instead, invest in libraries, they are an essential service that help people of all ages. They protect the public and provide a safe haven in ways that the police rarely do. Turn your attention to public health, Anaheim residents need access to care during this global health pandemic. Provide funds to education and supporting the school system. If you cut funding from public services in order to continue to inflate the police budget, you are promoting the idea that you desire to live in a police controlled state and city. That is unacceptable. Your constituents are watching and we will vote you out if you make a choice that further harms Anaheim.

Thank you,
Sumayyah Jewell

Subject: Decrease Police Funding

Dear Mayor Sidhu and Council Members,

My name is Andrea Pascual, and I am writing on behalf of myself and the citizens of Anaheim. I live in Anaheim, California. The deaths of Ahmaud Arbery, Breonna Taylor, and George Floyd have called attention to longstanding racial tensions in this country and police brutality against black people and other POC. As you may know, Mayor Garcetti recently stated he would [cut funding to LAPD by at least \\$150 million](#). We call on the City of Anaheim to re-allocate a portion of its budget away from police programs and take steps to eliminate police violence.

Although the recent killings occurred far from Anaheim, Anaheim has its own history of police violence. Many of us remember the summer of 2012, when two unarmed men, Manuel Diaz and Joel Acevedo were killed by Officers Nick Bennallack and Kelly Phillips of the Anaheim Police Department in two separate incidents. In 2017, the ACLU ranked Anaheim PD the [9th deadliest force in the country](#) for its record of officer-involved shootings. And in 2018, Anaheim police officers Sean Staymates and Kevin Pedersen shot at Eliuth Penalzoza Nava [more than 70 times before killing him](#), an incident that you remarked at the time was “disturbing.”

The officers involved in these shootings must face consequences for their actions. In the case of Manuel Diaz, it took a total of four years and an appeal to the Supreme Court to rule that Officer Bennallack used excessive force and award the amount of damages to the Diaz family. Even then, Officers Bennallack and Phillips faced no consequences for their actions and remain active in the Anaheim PD. What does it say when the people we trust to protect our streets, are responsible for taking innocent lives? To its credit, the City fired Officer Pedersen and placed Officer Staymates on administrative leave in light of the 2018 incident. But this is not enough. We are not satisfied with retroactive justice. The City of Anaheim has to act to prevent violence from happening in the first place.

First, we demand that the City reduce police funding. In the FY 2020/2021 Proposed Budget, approximately **42%** of our budget will be dedicated to law enforcement. Allocating a larger portion of these funds to efforts in education, homelessness, affordable housing, and mental health would greatly improve quality of life and reduce inequality in our neighborhoods. By focusing on these preventative measures, we will uplift our communities, see reduced crime, and diminish the need for police intervention.

Second, we must restructure law enforcement governance. In particular, we want to diminish the role of police unions, which repeatedly stand by officer misconduct and actively hinder efforts to oversee them. Furthermore, it should be required that if an officer commits a single act of misconduct they are immediately released from duty pending review of the incident. If the incident is substantiated they should be fired (NOT placed on desk duty) and should not be able to be rehired by another department.

Finally, we urge you to support the [8 Can't Wait Initiative](#) to minimize police violence. We call on Anaheim to:

- Ban Chokeholds and Strangleholds
- Require De-escalation
- Require Exhausting Other Means Before Shooting
- Ban Shooting at Moving Vehicles
- Implement Use of Force Continuum
- Require Comprehensive Reporting

Mayor Sidhu and Council Members, let us not be on the wrong side of history and instead make Anaheim a model for other cities to follow. We demand that you address these concerns in this month's city council meetings, and work to ensure the safety of all our citizens.

Best,

Andrea Pascual

Subject: Budget

Hello, my name is Ernesto Gutierrez. I've been an Anaheim resident for 21 years, and I love this city with all my heart. Please reconsider allowing some of the police budget to be used for other services in the city such as better parks, more mental health resources, and/or other forms of community management. More policing will only make people more distrustful of our city and of the officials that run it. Thank you for your time.

Best,
Ernesto Gutierrez

Hello Council Members,

These have been extraordinary times. We have been tirelessly working to provide all the services to the citizens of Anaheim. We want to continue to do the best we can. Since the great depression, the city staff has not increased. We have been doing more with less colleagues. We are stretched pretty thin. Layoffs will make it almost impossible to meet your agenda. Please do not lay off employees at this time. Please consider other options maybe closing City hall a couple of days a month (citywide furlough), continue visiting city hall by appointment only. Thank you for your consideration and thoughtfulness during these challenging times.

Thank you,

Subject: Do not cut 20% off the community service budget

Hello,

I am writing to you all today to request that you revisit your community budget spending and decrease police funding. Cities need to be investing in community education resources and not increasing police. This will hold a sustainable and prosperous Anaheim community in the short and long term.

Please do not cut 20% of funding to an already vulnerable population.

Kind regards,
Smeza K.

Subject: Budget

To the Anaheim City Council:

My name is Emily Wasilewski and I am a resident if Long Beach, California. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than the average for police in California.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than the average for police in California.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Subject: Public comment - Anaheim budget

Hello,

I just heard about the plan for "Resolution 19" that would spend \$700,000 of taxpayer money on surveillance technology of anti-police brutality protests. This is disgusting and awful. Please do not approve this plan.

I also just learned about "Resolution 5" that will use \$100,000 to improve 10 police vehicles.

You only spent \$1 million to community development last year! But over \$150 million on law enforcement.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016!! This is unacceptable.

Stop increasing police budget and invest money in creating programs that benefit and enrich the community especially during a global pandemic.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development. Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Sincerely,
Brock Chaffin

Subject: No on Resolution 5,19 & 30

My name is Jason and I am a resident of Anaheim. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. Subject: Anaheim council public comment

To the Anaheim City Council:

My name is Jamie and I am a resident of East Anaheim. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development. Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Subject: Resolution 19

To the Anaheim City Council:

My name is Rihab Beituni and I am a resident of Anaheim, CA. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We demand the council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which assumes residents are a danger](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic. We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Subject: "Cannabis"

As a long time resident of Anaheim (I have lived With my family in this great city since the late 1980s), I am surprised And even shocked that the city Is considering allowing the manufacturing, sale and distribution of marijuana and marijuana products. Is it true that we are inviting up to 20 retail locations, 20 indoor cultivation centers, 20 manufacturing facilities, and 20 distribution centers?

As a high school teacher and as a parent who has raised 5 children in the Anaheim School District, I have seen the Terrible effects of this drug on young minds.

Anaheim is known throughout the world as a family oriented city. Angels baseball. Ducks Hockey. Disneyland. And other places where parents feel it is safe to take their children, where there is a wholesome and healthy atmosphere.

Please do not allow these Cannabis facilities to Enter our city and destroy The wonderful reputation that we have.

Thank you for taking the time to read my opinion.

Subject: An Open Letter on Cannabis to Council Member Lucille Kring from a Concerned Anaheim Resident

AN OPEN LETTER ON CANNABIS TO COUNCIL MEMBER LUCILLE KRING FROM A CONCERNED ANAHEIM RESIDENT

Dear Council Member Kring,

Your sponsorship and advocacy for marijuana dispensaries in Anaheim is a profound disappointment. Let me ask you some questions that would help me better understand why you sponsored, and are so strongly supportive of, this ordinance.

1. You are the council member that represents Disneyland and the Disney Resort District. Why did you carve out an exception for Disneyland and the Resort District? In the entirely one-sided Orange County Register article on your proposed cannabis ordinance there was included a dispensary owner in LA quoted as a purported expert on the subject. In this article the "expert" said that he sells 30% of his marijuana to tourists. Why then aren't you advocating for placing some of the dispensaries on Harbor Blvd around Disneyland and the resort hotels? If you're truly after the tax money, then that would seem to be the logical place for them. If you truly think this is best for Anaheim and its residents, why are you fearful of offering it in the resort district?
2. At the May 12th council meeting in the comment section I observed a copy of a letter from you to someone in West Anaheim containing an assurance that there would be no legal dispensaries under your ordinance in West Anaheim. That was not true and was directly contradicted by the city staff. The staff stated in that same meeting that there are industrial areas in every council district that could qualify for the location of marijuana dispensaries under the proposed ordinance. Why did you tell West Anaheim residents that there would be no legal dispensaries in West Anaheim when your ordinance allows for them?
3. In follow up to question #2, let me ask how you expect to keep the illegal dispensaries out of West Anaheim? As we've heard repeatedly and loudly from West Anaheim residents, this is a chronic problem in their area of the city. How does opening legal recreational marijuana dispensaries in the far northern industrial area of West Anaheim drive out the illegal dispensaries in their neighborhoods? Unlike your specifically carved out resort district, there is no similar exclusion for West Anaheim. You advocated in the May 12th council meeting for keeping taxes low for the legal dispensaries so that they could be more competitive with illegal dispensaries. Using your words in the council meeting, you want to find the "sweet spot" for taxation to help the legal marijuana dispensaries to thrive.
4. In keeping taxes low for legal dispensaries, how is this going to significantly increase tax revenues for the city? Why would any resident of Anaheim believe that any of this tax revenue would be used for anything other than closely monitoring this industry? How is this going to fund any improvements in Anaheim or school programs trying to keep kids off drugs, especially when the city is sending the exact opposite message by legally permitting its sale in our city limits?
5. Why would residents of West Anaheim looking for recreational marijuana drive to the northern boundary of the city to purchase their pot when they can still find it in the illegal dispensaries that continue to proliferate in West Anaheim? What assurances do we have that the illegal dispensaries would be driven out of West Anaheim

by competition from the legal dispensaries? Won't the illegal dispensaries still offer far cheaper products? Won't residents looking for recreational marijuana refuse to drive 10 minutes away to purchase marijuana in the industrial area just as many of them presently refuse to drive 10 minutes away to Santa Ana or LA County for their purchases?

6. How would the sale of marijuana at legal dispensaries protect our youth? Introducing legal dispensaries in Anaheim sends the opposite message our schools strive to teach about the dangers of illicit drug use. It is simply one more example of adult hypocrisy. If anything, it will encourage our youth to experiment with marijuana obtained from neighborhood dealers in their back alleys.

7. If you are successful in your efforts to leave recreational marijuana dispensaries as your legacy as a council member in Anaheim, what assurance do we have that subsequent city councils can ever drive this industry out when the city wakes up to the monster you've created? Will the legalized dispensaries be forever entitled to remain if the law changes? How do we ever put the lid back on this industry if you and your supporters in the cannabis industry are successful in overturning our present prohibition? Will you ask the city attorney to answer this question in the June 9th council meeting? (how successful has he been at putting toothpaste back in the tube?)

8. There is some indication that there may be an effort by the city council to duck this issue and instead have the city council put the question of whether or not Anaheim should allow the sale of recreational cannabis and related industries to the voters in the November election. As I remember, you mentioned this possibility yourself in the May 12th council meeting. If this happens, how are your constituents Disneyland and the surrounding resort district going to be protected? How are our residential neighborhoods and schools going to be protected? [This raises the fundamental question of why in the world, if there is so much that needs protection from this industry, would we want it in Anaheim at all.] I have heard that the Chamber of Commerce has some involvement in bringing this to you and is a supporter of your effort to permit the sale of recreational cannabis, the indoor commercial growing of cannabis, and the manufacturing and distributing of cannabis products. Is this true? If so, how is any local citizen opposition going to be able to raise sufficient funds to oppose the combined resources of the Chamber of Commerce and the powerful and wealthy cannabis industry on a ballot measure? They would flood our mailboxes to overflowing with campaign literature. Our strongest resources to combat this are the residents of this city. Our best hope is to go door to door throughout this city knocking on our neighbor's doors to marshal opposition to the ballot measure – right in the middle of a pandemic. How is that safe in a pandemic? Are you cynical enough to use the pandemic to help achieve your goals?

9. Why are you doing this when our city and state are trying to cope with a pandemic? Shouldn't this be fully debated when your constituents are not distracted by a major health problem and the doors to city hall are locked? This is a nightmare of your creation. Please stop this now.

Ken Chinn

Subject: Cannabis

Dear Anaheim City Council,

I am writing to you today to offer some suggestions, and any assistance I can provide you and your staff regarding your cannabis ordinance and taxation.

Half of my life was spent growing up in Orange County, and I still have family in Huntington Beach, Brea, and your neighboring city of Fullerton, home to my 90 year old Bubbe.

I'll be brief: The success of your cannabis program, as it relates to all non-retail operations, is low taxation and affordable application fees, and that's what our short history has already shown.

Local cannabis retail and delivery taxation should really never be above 5%, as that is what will get legal buyers looking elsewhere, whether that's another city, or the black market.

In regards to taxation on all other items, time and time again we have cities become attractive overnight due to change in local cannabis taxation.

Long Beach and Costa Mesa became destinations for companies once they lowered their taxation to 1% of gross sales. Desert Hot Springs got rid of their manufacturing tax, Palm Springs dropped their distribution tax to 1%, Oakland slashed their whopping 10% tax in half, and the list goes on and on.

Benicia, CA has a great local tax, but their application alone is over \$50k, so who is willing to risk losing \$50k on a business that may or may not get approval?

This is not because people are looking to maximize profit, it's because they are looking to conduct business under realistically sustainable conditions, which are few and far between in California at this juncture.

Lastly, if the city prefers a method where it knows what it will be making each year, which I assume assists in budgeting and forecasting, then there is one more tax model. That is taxation by square footage, which although is a static tax rate, is one that can make the life of city tax collectors easier, and attract far more operators.

If you were to tax \$5/psf on the first 20,000sf of a cultivation facility, with a declining scale as square footage went up, both city and operator know what to expect to pay in taxes for a year.

Then you could add a yearly renewal fee which, again, would be another number that can be known to both the city and operator.

The exact same model can be used for manufacturing, but at a higher rate, as manufacturers require far less space.

Square footage taxation models, when reasonable, are far more attractive, as operators do not like getting taxed

more than the next person just for being more successful in their grow, all things being equal.

I believe that in order to remain competitive in the region, the City of Anaheim should work alongside the City of Fullerton to discuss retail taxation. If one city has 1%-2% more in taxation, and someone lives close to Fullerton, that's where they will shop, which is why balance works best.

Also, if your zoning is too tight, you will have a great deal of real estate speculators locking up properties in order to flip them, or rent them to an applicant at a higher rate, which just adds more barriers to entry.

I know, as that is what I'm doing right now, however, I focus on working with operators, not against them.

Thank you for your time.

Subject: "Cannabis"

To whom it may concern:

I'm writing in opposition to the proposed legislation allowing cannabis retail, cultivation, manufacturing and distribution within the city of Anaheim.

Speaking as a home owner and a family man, I can say this this is NOT something I want around my home and my family. This is not something I want to have eroding our community and polluting our environment. I don't want the image of Anaheim to be tarnished and sullied by the negative impact that industry brings with it. There other ways to generate revenue, this one we can do with out.

I don't just live and play in Anaheim, I work here also. I own two businesses in the city of Anaheim (a corporation and a home business) Please believe me when I say that the cost to benefit analysis of this proposed legislation doesn't pan out. This is a non starter and should be something that Anaheim passes on.

Thank You for your time.
Respectfully Submitted,
-Brian Baker

Subject: Cannabis - Oppose

Dear Mayor and City Council,

I oppose the proposed ordinance to bring Cannabis to the City of Anaheim. I am a long time resident and have seen what drugs (even legal ones) and alcohol have done to our community. Please do not let the lure of tax dollars change us even more into Santa Ana. I am a local realtor and am tired of being called "Anacrime". Please protect our citizens.

I as a business owner in the city of Anaheim would strongly agree with allowing Cannabis Licenses to operate with in the city of Anaheim. Cannabis already exists with in the city behind closed doors weather we like it or not. Why not legalize it with limits on licenses and collect Tax/Fees revenue. It's legal almost everywhere else. Our citizens have to go to cities near by to be able to get legal products. Surrounding city's are taking revenue away from our city. Also I strongly would rather see people being able to get legal and tested cannabis versus illegal and untested cannabis. Thank you

Subject: Cannabis Business Permits

Having “shopped” cannabis friendly cities in Southern California I can say all are prime examples of Bumbling Bureaucracies. They hold themselves out as cannabis friendly but it’s not true. I spoke to one city clerk about actual permits/licenses issued in their City. They claim 15 licenses were issued in 11 months but not one cannabis business existed in the city. The reason is the license fees were exorbitant and the City Ordinance draconian. 3 of the 11 had resigned prior to the renewal date.

If Anaheim followed the California Department of Agriculture and Foods licensing plan charged an annual fee and 10% tax on gross revenues Anaheim would be a richer community. But Anaheim must use a heavier hand when it comes to unlicensed Cannabis business within City limits. I hope this helps.

Many cities throughout the state have capitalized on the opportunity to provide job opportunities and tax revenue to their cities through cannabis based businesses. Typically Cannabis based businesses are business people. They show the merit of their business concept, their experience and ability to have a successful business when they submit a permit. When the City reviews the permit, they will know which cannabis business will add to the wealth of the community by adding jobs and revenue to the city. Our State has formulated legislation to ensure that safety is considered above revenue and I am certain that Anaheim will maintain that standard. Because of this, I recommend that you approve a measure to permit legal Cannabis sales in the City of Anaheim.

Hello,

As a homeowner in Anaheim Hills, I think legalizing cannabis will be good for our economy. Legalized cannabis generates tax revenue. With C19 bringing economic progress to halt we need to think about alternatives. What's holding us back?

Dear City Council

I live in Anaheim and have been an Attorney practicing Cannabis law for over 25 years. I give you the following as I would like to see the City in which I have lived for 33 years make the right choices when Taxing and Regulating cannabis. The following will help CLOSE all illegal shops and allow the legal businesses to flourish and provide safe access for Cannabis, instead of the shady , sleezy & unsafe shops that still exist in this City. This can only be accomplished by a sensible & reasonable policy on cannabis.

4.

As you are aware, most cities in the State have started off at with an average of 6% tax on gross revenues, on top of the and the State Cultivation Tax and the Excise tax (15%) that is paid by the Distributor and one by the (15%) Consumer, then you have the regular City and State Sales and Use tax, which can effectively tax the product at 40% or higher. This is driving people back to the illicit market and makes it very difficult for legal cannabis businesses to stay in business. Most cities that started with a high tax, are now cutting back the Taxes to 1%.

5.

I highly recommend the Tax be on the Net profit, not the Gross. Why treat this Business,, "which has been deemed essential" any differently than any other agricultural product or goods? Taxing a business on their Gross profit will not allow profitability, especially with Tax Code 280(e) adversely affecting their bottom line. You are setting up many businesses to fail by taxing on the Gross.

6.

Even though I do not believe there should be a cap on any of these businesses and allow a free market to decide, there is no reason to cap the number of Non-Retail businesses, since they are limited to Industrial areas. The City is only limiting the number of Jobs and Revenue's that come from the Cannabis

industry, by limiting the number of non-retail businesses.

7.

You should seriously consider putting in a provision for Consumption Lounges, especially since we are such a huge tourist destination, so that tourists have a safe place to use the Cannabis they purchase in our City.

One last caveat regarding keeping taxes low on Cannabis businesses: **“Wouldn't you rather have a little bit of revenue of a huge amount or a lot of a little?”**

If anyone from the City Council wishes to discuss any of my points above, please feel free to reach out to my office.

As a business owner that falls into the industrial map provided, I vehemently oppose the legalization of cannabis shops in Anaheim.

We have been in this location for over 40 years and have seen the area change drastically. We had a huge homeless problem which has now been improved. But an illegal pot shop opened across the street from us at Amighini Antique & Custom Doors. He was renting a space to an illegal pot shop on his property that drew unsavory characters to the neighborhood. Since parking was limited, customers would park in our lot and cross the street. There was even a shooting on the corner at one point. Is this what you want for this city?

It took months to get them out but it was successful. To bring this scourge back would be a detriment for our business and our customers.

And the Motel 6 across from us already has questionable people staying there. We've seen the police & ambulances in their parking lot many times. Prostitution and drug use is rampant there and would only get worse.

We also have a warehouse behind us on Via Burton where our customers pick up their goods. They should not have to feel wary due to the influx of pot users that may park behind our store. The people who were going to the pot shop looked like the typical drug user, not a customer who would visit our store.

I suggest that the laws to oust a business like this be strengthened and made to move more quickly for their closure. I realize the city would receive more money in taxes but is money or the livelihood of small businesses like ours more important to city officials?

We have been closed for 2 months due to the pandemic and now we will have this to fight off - not exactly what I would expect from Anaheim.

I urge you to reconsider what this would do to us and our retail neighbors.

Thank you.

Dear Council Members,

I am a life long Anaheim resident and cannabis consumer of 18 years. I'd simply like to say, it is the responsibility of this fine city to allow for well-funded, regulated and responsible cannabis businesses to operate within city limits. As you have already realized, no matter how hard you try to close illicit shops, more just pop up despite your efforts. As all of the capital in the cannabis industry has flowed over to the legal side of things, the people left over are not the element you want running cannabis businesses. They're renegades with no concern other than making a quick buck. Some I suspect may even be run by criminal enterprises. I will say as someone who's patronized these shops many times, they are unsafe. They are full of building and health code violations. California has strict guidelines regarding pesticides and mold, of which these shops pay no mind. They're selling unregulated, untaxed cannabis products. In this scenario, we all lose.

Cannabis has been used for centuries and no law has ever been able to stop it. The best course of action is a well thought out plan to allow cannabis businesses in parts of the city. You've welcomed breweries and distilleries with open arms. Its time to start allowing law abiding retailers to capture business from the illicit shops to weaken and close them down for good. I know some residents may disagree, but the people of California voted in this law for a reason. Prohibition is what's driven the very criminal activity that we expel so many resources to fight. It's time to try a different approach.

Sincerely,

Travis Call

To Anaheim City Council members,

I do not support the sale, cultivation, manufacturing, or distribution of cannabis in the City of Anaheim. I moved away from Los Angeles to raise my family in a city that shared my values. There are relatively few strip clubs, adult stores, liquor stores, bars, smoke shops and no marijuana stores that tend to bring in people that do not share my values. I've seen places in Los Angeles improve and decay simply based on the types of businesses allowed. I've lived in the colony for over 10 years now and I've seen tremendous improvements in an area my family in LA and south county told me not to move. They would remind me of the Ana-crime and Ana-slime nicknames and tell me to stay away from anywhere close to Ball in Anaheim. I've loved living in Anaheim and the city has done a great job developing a new narrative for the city that does not play into our past reputation. The cannabis business will have a negative effect. I've already seen it in other cities. Please help us maintain our property values, dignity, and values. Help us maintain a safe city free from irresponsible people that tend to smoke. Help us keep it away from our children. You can help by opposing this ordinance.

Thank you,

Bryan Low

Dear Mayor and City Council,

Please do not allow the ordinance to pass. I think it would be a detriment to our city and lead to more crime. I already live next door to a family that grows their own and smokes it in their backyard subjecting my family to the secondhand smoke. I would hate for our whole city to smell like Las Vegas.

To: [Council](#)
Subject: I am for cannabis!
Date: Friday, June 5, 2020 10:10:43 AM

Hello Anaheim Council Members,

My name is Jakki Hernandez. I am a 39 year old married woman who resides in Anaheim district 2. I am a medical cannabis patient who consumes the plant due to multiple autoimmune conditions that affect my nervous system causing chronic pain. Coming from the perspective of a patient, I am pleading with you to allow legal cannabis shops in our city.

The sad truth is whether you allow it or not, they are here.

As a patient I know first hand how hard it is to obtain medicine that is trusted and consistent to treat my chronic pain. I was fortunate to have found a plant that allowed me to get off of every opiate the doctors prescribed me for a better part of a decade. It also removed a lot of the other prescriptions those opiates caused me to need to help with my digestive tract issues from years of prescribed opiate use. I was born with a condition called Neurofibromatosis. This condition is where tumors grow on and around your nervous system. As many with autoimmune disorder, once you have one you are prone to more. After a fall, I broke my foot and later developed another pain condition called Complex Regional Pain Syndrome that also affects the nervous system and is often described as the most painful chronic pain condition to have.

Today, I have more tumors on my body than I can count, I have had 8 surgeries to remove 100s of tumors growing from my head to my feet. Before my first surgery, I was hospitalized for 2 months because the pain had grown so intense, and the tumor was growing internally and externally affecting the way I walked and even sat. As I was hospitalized and pumped full of morphine it occurred to me, why are they giving me synthetic heroin (morphine) when they could easily give me a natural plant, cannabis? Fast forward to when they released me from the hospital with a medication list of painkillers, stool softeners and methadone along with instructions that they were too scared to remove any tumors because they were connected to important nerves. I knew this diagnosis was far to bleak for a 22 year old to hear. They were hoping I would find relief through their cocktail of medications, but of course it did not help. It actually affected me way more than any joint ever did.

Needless to say, this led me back to the emergency room to get catheterized since all my muscles were so overly doped up. I couldn't go to the bathroom on my own. After a brief candid discussion with my doctor led me to the realization I had been severely over medicated and these medicines were not even helping relieve the pain. I cried to myself, "there has to be a better way." At that moment I told my loved ones, even if I scream do not give me these pills. The next few days led me to a terrible 6 day withdrawal that made me promise myself I would never take another pill again. I was hallucinating, vomiting, shivering, sweating, and even had to stay in a bath of hot water for most of the day to deal with the debilitating pain my body experienced. Over 15 years later, I can now say I am completely off of the drugs the doctors prescribed me.

As a consumer/ patient of cannabis for over 15 years I can with 100 percent certainty say there is no withdrawal when omitting the medicine from my life, and I have not developed an addiction. I have gone without, but why would I when this plant is what gives me the ability to

be, "pain - less" enough to be a functional member of society.

I am able to consume an edible or a cannabis tincture multiple times a day just as I would use a Vicodin or a Norco given by a doctor, to help me with my internal tumor pain and apply cannabis topicals to help with the pain on top of my skin. Cannabis is now the only type of medication I consume. To think, my very own doctors told me that nothing could help me. Actually, the last thing I heard from a pain management doctor was, "I would have to live with a morphine pump in my spine for the rest of my life, in order to find relief and function." Morphine would be like my insulin if I were a diabetic. This should never be someone's way of life if a plant can give a person better relief with no harmful side effects. I am so glad, I did not listen and I did my own research. Plants over pills is now a slogan I use daily.

This is why I am an advocate for cannabis legalization. I am close to this industry and recently left the cannabis retail space in Long Beach. I have spent the last 15 years helping other people like myself live a life with less discomfort and little side effects. Not every person has my story, and that is why it is important to have educated people working in these state regulated cannabis shops. The licensed stores not only bring safe and consistent medicine to those that need it most. They also improve the city they are placed in, by following the guidelines in place and bringing security to a neighborhood that normally doesn't have it.

I can personally attest to our licensed cannabis shop improving the city; from our security protecting the neighborhood to our local city cleanups I noticed first hand providing safe access not only is a necessity for patients like myself but it can also build up a neighborhood. We checked i.d and only let those 21 years of age or older purchase products, had to enter all items exchanged with vendors into a system tracked by the state and everything had to be tested to enter our store. These are not exclusive to my store, they are the rules all legal shops follow in order to protect the consumer also which the consumer pays heavily for through taxes. This is a major benefit for cities since the taxes they pay can go back to rebuilding roads, schools and also funds anti drug programs.

Illicit shops are not obvious to the layman that they are not legal. This means all types of people will walk in and obtain the products behind the counter. By continuing to permit the non licensed cannabis shops in Anaheim your residents and tourists are affected by many consequences of the illicit market.

1. The products sold in unregulated shops are not lab tested.
2. Safety is a large concern, these shops do not have security guards.
3. Often contain harmful chemicals, mold or are sold past the expiration date
4. The products are sold to anyone, with no consideration of any age or health condition.
5. Allow consumption on premise
6. These shops at times place taxes on the consumer, and since the shop is not regulated or licensed 100% of those profits goes directly to the underground drug market in Anaheim. This also confuses your residents, since it appears the shop is more legitimate when they see taxes on the receipt.
7. Our citizens and visitors are duped into shopping at these stores believing they are regulated by the state resulting in the city of Anaheim, it is not common knowledge that the only current city allowing licensed cannabis is Santa Ana.
8. The Anaheim residents do not know they are shopping in a black market store or that these shops are selling counterfeit products in packages that otherwise, are sold in the regulated cannabis market.

Not providing competition for these illicit shops allows them to continue to manipulate and harm the Anaheim residents and its visitors. Providing options for the patients and consumers to shop local and buy legal will not only bring in revenue and jobs from these essential workplaces but will provide safe access to regulated products for anyone that visits Anaheim.

I am speaking for the patients when I say, this is a public health issue as they are the ones who know they have compromised immune systems but don't know the products they are purchasing may contain harmful chemicals that could exacerbate their issues or much worse cause severe illness like the most recent vape illness, EVALI that plagued our country. This unfortunate illness comes from the illicit markets vape products. Sadly, some of these products even used the packaging from legal brands to compel the person to buy. Only, the products sold at illicit stores don't have to follow state guidelines to protect their shoppers. Also patients don't always have the means or ability to drive 45 minutes to a county that can serve them. Please think about the patients, it is so difficult to be able to obtain safe and effective plant medicine.

As a former Cannabis Retail Manager, I have seen and spoken to every demographic that would enter my shop. The consensus is, many do not know the difference between a legal and illegal shop. Until that is they have an experience at one. The service is educated and well communicated. The products are all tested and consistent. The brands even come with references for actual medical professionals allowing us to connect actual patients with science based answers to their questions. We can bring this service to our city, we deserve it. Our elderly and immunocompromised citizens deserve safe access without having to drive 40 miles away.

Lets have Anaheim be the city that stands up to the other market by showing the public the difference. Clean tested cannabis products available for our city. We can kick out the black market storefronts by providing legal competition.

Please pass this ballot measure so the residents of Anaheim can choose for themselves in November whether or not commercial cannabis should be in their town.

Thank you for your time and consideration
Jakki Hernandez

To whom it may concern

We are very annoyed that a Board Member continues to use the dais for his political bashings and rantings. The law prohibits using public resources for political purposes, why is the Chair of the TCA Board not shutting down this inappropriate political dialogue?

We have heard that the TCA supported two candidates in the last San Clemente City Council election so the TCA would have influence over the city's policymaking. The TCA has NO BUSINESS meddling in local elections, as it goes against our great democracy and is against the law.

Just so you know Rancho Santa Margarita has a population of roughly 48,000 people yet, the TCA Director Tony Beall slams and smashes our elected highly qualified and effective elected officials that represent over 500,000 people in Orange County. It is astonishing that the TCA attorney and the other board members allow this bully to spew misinformation and his own hateful political agenda on our public dime.

This needs to stop. A complaint will be filed with the FPPC and we hope that the TCA cleans up this illegal and highly inappropriate behavior.

Subject: Moving forward & BLM

My question to the city council is this-

In the aftermath of George Floyd & protesting in our city, what does the council plan to do about complaints regarding police violence? Our city has come together demanding racial equality and justice for all. How do you plan to address this issue?

Subject: Public Comment on Behalf of Dist. 1 Resident

Hello,

I am submitting the following comment on behalf of a resident that called the City Council office:

Comment from: Karen Burkert – Dist. 1 Resident –

“City of Anaheim needs to extend the rental assistance program for the duration of the pandemic. I am a Disneyland employee. We are being told that the park may not reopen until January 1st, or even after that date. I have lived in the same apartment for 20 years. I do not want to be evicted. There is no way I can pay my rent without this program. I am worried about what will happen to me. I also believe that Anaheim should legalize cannabis dispensaries. The tax revenue from those sales can be used for this rental assistance program. I believe that District 1 would strongly benefit from neighborhood improvements that this tax revenue can pay for. “

Submitted on Karen’s behalf by:

Lauren Torres
Senior Secretary
Office of the Mayor and City Council

Subject: Peaceful Protest

The Events of the Past Few Weeks, gives us a chance to, stop and reflect on one own self, and our City's past history, of the officers of Anaheim police department, who has acted as 'Judge, Jury and executioner', in the killing of several unarmed civilians, and the business as usual approach, by the police department and even more so the city council, unwillingness to ask questions, pass council's did go as far as appointing a quasi civilian police review board, to give recommendations to the city council (or so that's how it's billed) Just recent the judgement against the department, and a pay out of millions of dollars to the family of Vincent Valenzuela and several more incidents that have recently taken place, you should be asking yourself, are we as a City and We as Elected Council Members asking to 'right' questions, or for some, are you asking any questions at all? Also the 'undo influence' of the Anaheim Police Union, on the Elected Members of the Council, I think would Hinder the Elected City Council Members from seeking change, in other words (the voters aren't there) to have true reform. It should be within your discretion, to remove any members of the police department, especially the repeat offenders, and any future misconduct, involving civilians injuries or deaths.

Subject: Stand against racism

Dear Council Members,

I am a latino resident and business owner in Anaheim and I am proud to see the protests we are having and proud to see the peaceful support. The problem is we are part of a larger county, and there are grave injustices happening all around us. From the KKK in Huntington Beach that surrounded me at the protests and threatened my life with a motorcycle to the OC Sheriff with an Oath keepers/III% patch on to intimidate peaceful protesters. WE as a city need to stand up as an example to the rest of this county and condemn these actions. WE as a city need to condemn the OC Sheriff's department for saying "Any symbol can have multiple meanings and is open to interpretation".

Let US be an example for the rest of Orange County, let us be the change that is needed.

Thank you for reading and I hope you make the right decision and stand on the right side of history.

Subject: Change for City of Anaheim

Mayor & City Council Members,

As a long time resident & homeowner in Anaheim ..my HOPE & RESPECTFUL
RECOMMENDATION for Anaheim...

Moving Forward.. Implement some long term SOLUTIONS to END ALL Social INJUSTICE and
INEQUALITY that may be occurring in Anaheim...Some institutions of the City that may need to be
REVIEWED: .. I understand there may be a police Commission However as the Governing board of Anaheim I
Recommend can YOU review THE POLICE FORCE...DO OFFICERS need retraining..

Outlawing some maneuvers that may cause injury/ death...Also Ensure ALL
Officers have a mindset of community...

a mindset to bring those accused of a crime in to face their punishment thru the judicial system..Officers are not
Judge-Jury-Executioner...At the same time Officers / and those accused of crime must ALL be safe...I
understand this will be Challenging...but thru..

DIFFERENT MINDSETS...MORE LOCAL

POLICING..Bringing neighborhood leaders TOGETHER to brainstorm on
Solutions that will work long term..or other suggested positive ideals...

CHANGE begins with ideas then put into positive actions

I know there is a school board ..However as a young person is educated ..this will affect their whole
life...Are Our schools safe ..and a place
where ALL students FEEL SAFE&can learn??

The Police Department & School system are only two Institutes I mention here....WE are a big city

But working toward POSITIVE SOLUTIONS THRU POSITIVE ACTIONS

is not IMPOSSIBLE...IT WILL BE CHALLENGING..but with YOUR patience..leadership..hard work and
staying accountable to We Your constituents...HOPEFULLY WE CAN ALL WORK TOGETHER UNITED to
make Anaheim a wonderful place to live &

work & play.....MY HOPE FOR WORLD

PEACE & PEACEFUL DIGNITY FOR ALL STARTS in my home first..and 2nd

in my local community(Anaheim)...if We citizens are called to ACTION ..by YOU the city Council to preform
actions that will make a BETTER FUTURE FOR ALL ..then many of us would be happy to be of service

Thanks for reading& considering some new ideals for a better future for ALL
Scarlette Almero

Subject: Public Comment on Non-Agenda Items

Dear Mayor, City Council and Staff,

I appreciate how difficult it must be to hold City Council meetings virtually with the need to accommodate the public in matters of deliberation.

I have reviewed the current agenda for today's meeting and was curious as to why there does not seem to be mention of the City's response and efforts toward justice and an update on the City's response to the recent protests and marches calling for justice and the dismantling of systematic racism in our communities. I appreciate that you have included a moment of silence for George Floyd, but I hope you will have more to say. Is there a time and place we can look forward to the City's response and plan?

Sincerely,

Rev. Lissa Smith
Anaheim Resident -

Anaheim, CA 92807

Subject: DEFUND APD

To the Anaheim City Council:

My name is Gabriel and I am a resident of Anaheim. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Fran PD and is 74% higher than the average for police in California.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Sincerely,

Briana Nguyen

My name is Dr. Kathryn Daniels, and I am a resident of Anaheim. I am writing to urge you to disinvest in police and invest in the community. Restructuring community safety away from policing is the future.

Anaheim has the choice to be a leader in this issue. Sadly, if Anaheim chooses to not restructure how it funds community safety at this time, the city will be LESS safe and more lives will be lost to police violence.

It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim

has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end. The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors.](#) Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors.](#) Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Camille

Subject: No on Resolution 5,19 & 30

I am a resident of Orange County. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. From: Katilyn
Sent: Tuesday, June 9, 2020 8:48 AM
To: Public Comment
Subject: No on Resolution 5,19, & 30

Dear Anaheim City Council,

My name is Katilyn and my family and I have been residents of Anaheim for over 25 years. I am writing to request that the council not approve "Resolution 19", "Resolution 5", and "Resolution 30".

I believe Resolution 19 violates my privacy and the rights of Anaheim residents. I don't support spending \$700,000 on more surveillance technology. I've read up on this topic and it doesn't seem clear to me how exactly stingray devices are being implemented today. If stingrays are currently being used without a specific warrant and instead being used over wide sweeping areas, I demand their use immediately end.

The police department already has a budget of \$153.8 million. What are they doing with all that money? Why do they need more? Should we be auditing their budget and see how they can spend their money more wisely? I believe APD shouldn't get any additional money. They already have a lot more than other departments and the rest of Anaheim's taxpayer's money should go into more worthwhile projects. Let's focus on how we can improve Anaheim as a city and how we can positively impact every resident's lives. Spending more and more on the police department isn't how we accomplish that vision.

Please bear in mind the current environment we are in today. Let Anaheim become a pioneer and a beacon for how a different future looks like. Are we not home to the Happiest Place on Earth? Let us build upon that.

Best Regards,

Katilyn G.

Subject: No on Resolution 5,19 & 30

To the Anaheim City Council:

My name is Fernando Pineda and I am a resident of the central district in Anaheim. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Subject: No on Resolution 5,19 & 30

To the Anaheim City Council:

My name is Frankie and I am a resident of Chino, District 3. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Frankie Garcia

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Subject: Public Comment: NO for Resolution 5,19 & 30

To whomever it may concern,

My name is Makena and I am a resident of Huntington Beach, CA.

Today I'm writing to address a genuine concern I have for the well-being of the Anaheim community. I hope that you agree that the health of citizens is of the utmost importance for Anaheim's City Council. Unfortunately, we are not doing a great job in looking after our neighborhood people of color. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Yet, we have the largest military budget, and some of the most well-funded police departments in the world. Anaheim is no different: the 2019-2020 budget allocated **\$153.8 million** to law enforcement and only **\$1 million** to community development. If we truly care about our community, then these numbers just don't add up to me.

Anaheim is the **9th** most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly **40% of them were unarmed**. Are police protecting the people or slaughtering them? Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. As we know, police can use this footage to track protestors and perform revenge arrests, even if the protest happened years earlier. This surveillance goes against our ability to speak freely and stifles democracy. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members, especially Black folx. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Best,

Makena from Huntington Beach

Subject: [SUBJECT:No on Resolution 5,19 & 30]

To the Anaheim City Council:

My name is Nahely Arevalo and I am a resident of Anaheim's District 3. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

To Whom It May Concern:

My name is Karla Morales and I am a resident of Anaheim/District 46. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Sincerely,
Your Constituent

Subject: City Budget

To the Anaheim City Council:

[SUBJECT:No on Resolution 5,19 & 30]

My name is Vivien Watson and I am a resident of Los Angeles County. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. To: Public Comment
Subject: No on Resolution 5,19 & 30

To the Anaheim City Council:

My name is Fiorella M. Casella and I am a resident of Stanton. I am writing to voice my concern for the future of Anaheim. Policing practices in the United States have become a serious problem and this city is part of it. According to a 2017 study done by the ACLU, the Anaheim Police Department is considered the 9th most violent in the U.S. and since 2014 the rate of arrest -related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD. Yet, the city of Anaheim continues to support this troubled organization, irresponsibly investing on a broken system that harasses Black and Brown communities. The Anaheim City Council needs to recognize that this high investment is no longer bringing a positive return and it must end.

In my years working in affordable housing in Anaheim I have seen first-hand what is happening in these Black and Brown communities and what they need isn't more police. Children in your city are living with the harsh realities of housing instability and food insecurity. Teens have limited choices in a future because they need to help mom and dad with bills and parents have to hope to god that they don't have an emergency because emergencies can't be included when you live paycheck to paycheck...yet the city of Anaheim still thinks that it is better to spend \$800,000 of taxpayer money on the Anaheim Police Department? **Supporting the growth of the community and the development of its residents should be the Anaheim's first priority – not continuing to spend on an organization that has already received \$153.8 million during the last fiscal year while these residents received less than one percent.**

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30"proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors. Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors](#). Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

To the Anaheim City Council:

[SUBJECT:No on Resolution 5,19 & 30]

My name is Alexa Taylor and I am a resident of Westminster, Ca. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development. Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world. Anaheim is no different: the 2019-2020 budget allocated \$153.8 million to law enforcement and only \$1 million to community development.

Anaheim is the 9th most violent police department in the U.S. From 2003-2016, Anaheim Police Department killed 33 people during the process of arrest, and nearly 40% of them were unarmed. Since 2014, the rate of arrest-related deaths caused by Anaheim PD exceeds that of LAPD, NYPD, and San Francisco PD and is 74% higher than the average for police in California, according to a 2017 study by the ACLU.

WE DEMAND that the city council not approve "Resolution 19" that would spend \$700,000 dollars of taxpayer money on surveillance technology of anti-police brutality protests and that any future projects related to surveillance be halted. We also DEMAND that the council not approve "Resolution 5" that will use \$100,000 to improve 10 police vehicles. We DEMAND that the city council not approve "Resolution 30" [proclaiming the continuing existence of a local emergency regarding civil unrest, which will continue to criminalize peaceful protestors.](#) Instead, invest that money in creating programs that benefit and enrich the community especially during a global pandemic.

We are calling on our elected officials to stop criminalizing our community members. We as a concerned community refuse to remain silent on the use of technology to further terrorize our community.

Subject: No on Resolution 5, 19 & 30

To the Anaheim City Council:

My name is Christopher Ozuna and I am a resident of Anaheim, Orange County. I am writing in deep concern for the health of the greater Anaheim community. It has become more than clear that a radical shift in our concept of policing and community health must take place at the local level. Police violence in Anaheim has disproportionately affected Black and Brown residents and that must come to an end.

The United States does not have a national healthcare system. Instead, we have the largest military budget, and some of the most well-funded and militarized police departments in the world.
